Faith Physics Nathan V. Hoffman, 2021-03-15 Faith Physics is a new Theory of Everything ToE combining ancient spiritual wisdom and modern quantum physics findings to deliver a belief system that is both intellectually sound and spiritually satisfying. It maintains an ineffable Supreme Consciousness is the catalyst of all material creation as a great thought through pure white light in zero point morphogenetic quantum fields. Faith Physics claims that consciousness is the cornerstone of base reality existing in a timeless state of now. By using the natural cause and effect laws of classical physics, the uncertainty principle of quantum mechanics, and dark matter energy, Faith Physics posits pure consciousness manifests physical creation in a remarkable myriad of forms. In the wave particle duality paradigm revealed by quantum mechanics, conscious observation transforms light energy into particulate physical matter as condensed or frozen light in accordance with Albert Einstein's famous $E=mc^2$ equation. Faith Physics teaches us we exist and thrive in a unified participatory universe emanating from an eternal Supreme Consciousness source and we are not just a product of random chance evolution. In the 21st century, religion and science are reaching an enlightened consensus that pure metaphysical consciousness is perpetually painting a picture on the space-time continuum canvas depicting a miraculous cycle of physical creation, entropy, and cosmic rebirth.

Prayer, Quantum Physics and Hotel Mattresses Jim Berge, 2012-02-21 God's creation is so intimately intertwined that we cannot separate the visible from the invisible. The unseen thoughts, emotions, and matters of the Spirit have a dramatic impact on the seen stuff we deal with every day. Prayer, Quantum Physics, and Hotel Mattresses strives to integrate the visible and invisible aspects of life, prayer representing the spiritual and relational side of life, quantum physics representing the fundamental and scientific aspects of ultimate reality, and the physical world in which we live, and hotel mattresses representing the everyday stuff and situations to which we apply our faith. You will learn Science and the Bible are not in competition; they are totally different but complementary and they stand side by side as two of the most significant revelations of God. God wants to be intimately involved in every aspect of our lives, not just our worship on Sunday mornings. There is an intimately spiritual nature in your everyday life. How to better understand the physical world and enter into a deeper intimacy with the Creator God.
