

Fire Alarm Stations

270 Series

Overview

EDWARDS 270 Series Non-Coded Fire Alarm Stations are sturdy, attractive, and designed for economical installation.

The station is available in the following operational and functional designs:

- **The 270 Series** provides a single action, break glass initiating station. It is available with normally open (N.O.) normally closed (N.C.) or combination N.O./N.C. contacts. The basic 270 Series have screw terminals for field connection. The 270A Series Manual Stations have 6 inch (150mm) wire leads.
- **The 270P Series** is a break glass, normally open pre-signal station. The pull of the lever sounds an alarm on all pre-signal indicating devices. Inserting a key and turning it will initiate a general evacuation alarm. Screw terminals are provided for field connection.

All non-coded stations are designed for either flush or surface mounting. For flush mounting a 4 inch standard North American square box with single gang plaster cover should be used. For surface mounting the 270 Series or 270P Series, use P-027193 Cast Box, P-039250 Steel Box Housing for weatherproof enclosure.

Standard Features

- Pull lever
- Simple positive operation
- Break glass
- Attractive, streamline design
- Less than 5 lb pull force complies with ADA
- Solid, die-cast metal construction
