Understanding primary school teachers' mathematical knowledge for teaching Yasmin Sitabkhan,Aida Alikova,Nurgul Toktogulova,Adema Zholdoshbekova,Wendi Ralaingita,Jonathan Stern,2025-05-13 We present the results from an exploratory

study that aimed to measure teachers specialized knowledge in early mathematics during a pilot of an educational intervention using the Foundational Mathematical Knowledge for Teaching FMKT survey The survey was administered to 323 teachers in the Kyrgyz Republic in 2021 We delve into survey results at two timepoints pre and post intervention to showcase the areas in which the intervention was successful and identify ongoing challenges in teacher knowledge We found that the FMKT provided detailed specific information on teacher learning and is an example of one way to center teacher knowledge in an instructional intervention

Exploring the Mathematical Education of Teachers Using TEDS-M Data Maria Teresa Tatto, Michael C. Rodriguez, Wendy M. Smith, Mark D. Reckase, Kiril Bankov, 2018-08-16 This book uses the publicly available TEDS M data to answer such questions as How does teacher education contribute to the learning outcomes of future teachers Are there programs that are more successful than others in helping teachers learn to teach mathematics How does the local and national policy environment contribute to teacher education outcomes It invites readers to explore these questions across a large number of international settings The importance of preparing future mathematics teachers has become a priority across many nations Across the globe nations have allocated resources and expertise to this endeavour Yet in spite of the importance accorded to teacher education not much is known about different approaches to preparing knowledgeable teachers and whether these approaches do in fact achieve their purpose The Mathematics Teacher Education and Development Study TEDS M is the first and to date the only cross national study using scientific and representative samples to provide empirical data on the knowledge that future mathematics teachers of primary and secondary school acquire in their teacher education programs The study addresses the central importance of teacher knowledge in learning to teach mathematics by examining variation in the nature and influence of teacher education programs within and across countries The study collected data on teacher education programs structure curriculum and opportunities to learn on teacher educators characteristics and beliefs and on future mathematics teachers individual characteristics beliefs and mathematics and pedagogical knowledge across 17 countries providing a unique opportunity to explore enduring questions in the field

Instructor's Manual for Elementary and Middle School Mathematics John Van de Walle, 2004 *Technology and Assessment* National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Board on Testing and Assessment, 2002-04-26 The papers in this collection were commissioned by the Board on Testing and Assessment BOTA of the National Research Council NRC for a workshop held on November 14 2001 with support from the William and Flora Hewlett Foundation Goals for the workshop were twofold One was to share the major messages of the recently released NRC committee report Knowing What Students Know The Science and Design of Educational Assessment 2001 which synthesizes advances in the cognitive sciences and methods of measurement and considers their implications for improving educational assessment The second goal was to delve more deeply into one of the major themes of that report the role that technology could play in bringing those advances together which is the focus of these papers For the workshop

selected researchers working in the intersection of technology and assessment were asked to write about some of the challenges and opportunities for more fully capitalizing on the power of information technologies to improve assessment to illustrate those issues with examples from their own research and to identify priorities for research and development in this area
