suffering from a terrible soul numbing imbalance in which there is an overemphasis on basic quantifiable skills and

knowledge and a de emphasis of more creative areas of the humanities especially the arts and aesthetics Detels indicates

that the marginalization of the arts and aesthetics in American education has been caused by a hard boundaried paradigm

that has come to dominate American education According to this paradigm the arts are wrongly viewed and taught as

separate unconnected disciplines of music visual arts dance and theater while their intimate connections to each other and to

aesthetic experience and life in general are completely unrepresented The way out of this crisis is to change paradigms from

a hard boundaried single minded valuation of specialization to a more soft boundaried curriculum that allows for specialized

education in individual art forms as well as widespread interdisciplinary integration of the arts with each other and with

general education at the K 12 and college levels Without such a change we will be unable to equip our students with the

necessary skills to understand and communicate about the increasingly complex sensually immersive artistic media and

forms of the future
