

History Of Florence And Italy

Niccolo Machiavelli

History Of Florence And Italy:

The History of Florence and of the Affairs of Italy Niccolò Machiavelli, 1898 History of Florence and Of the Affairs Of Italy Niccolò Machiavelli, 2013-12-01 Niccolò di Bernardo dei Machiavelli 1469 1527 was an Italian political philosopher musician poet and romantic comedic playwright He is a figure of the Italian Renaissance and a central figure of its political component most widely known for his treatises on realist political theory *The Prince* 1513 on the one hand and republicanism *Discourses on Livy* 1512 1517 on the other *The History of Florence* Niccolò Machiavelli, 1891 **History of Florence and of the Affairs of Italy** Niccolò Machiavelli, 2006-01-01 Niccolò Machiavelli the first great Italian historian and one of the most eminent political writers of any age or country was born at Florence May 3 1469 He was of an old though not wealthy Tuscan family his father who was a jurist dying when Niccolò was sixteen years old We know nothing of Machiavelli's youth and little about his studies He does not seem to have received the usual humanistic education of his time as he knew no Greek The first notice of Machiavelli is in 1498 when we find him holding the office of Secretary in the second Chancery of the Signoria which office he retained till the downfall of the Florentine Republic in 1512 His unusual ability was soon recognized and in 1500 he was sent on a mission to Louis XII of France and afterward on an embassy to Cesare Borgia the lord of Romagna at Urbino Machiavelli's report and description of this and subsequent embassies to this prince shows his undisguised admiration for the courage and cunning of Cesare who was a master in the application of the principles afterwards exposed in such a skillful and uncompromising manner by Machiavelli in his *Prince* The limits of this introduction will not permit us to follow with any detail the many important duties with which he was charged by his native state all of which he fulfilled with the utmost fidelity and with consummate skill When after the battle of Ravenna in 1512 the holy league determined upon the downfall of Piero Soderini Gonfaloniere of the Florentine Republic and the restoration of the Medici the efforts of Machiavelli who was an ardent republican were in vain the troops he had helped to organize fled before the Spaniards and the Medici were returned to power Machiavelli attempted to conciliate his new masters but he was deprived of his office and being accused in the following year of participation in the conspiracy of Boccia and Capponi he was imprisoned and tortured though afterward set at liberty by Pope Leo X He now retired to a small estate near San Casciano seven miles from Florence Here he devoted himself to political and historical studies and though apparently retired from public life his letters show the deep and passionate interest he took in the political vicissitudes through which Italy was then passing and in all of which the singleness of purpose with which he continued to advance his native Florence is clearly manifested It was during his retirement upon his little estate at San Casciano that Machiavelli wrote *The Prince* the most famous of all his writings and here also he had begun a much more extensive work his *Discourses on the Decades of Livy* which continued to occupy him for several years These *Discourses* which do not form a continuous commentary on Livy give Machiavelli an opportunity to express his own views on the government of the state a task for which his long and varied

political experience and an assiduous study of the ancients rendered him eminently qualified The Discourses and The Prince written at the same time supplement each other and are really one work Indeed the treatise The Art of War though not written till 1520 should be mentioned here because of its intimate connection with these two treatises it being in fact a further development of some of the thoughts expressed in the Discorsi The Prince a short work divided into twenty six books is the best known of all Machiavelli s writings Herein he expresses in his own masterly way his views on the founding of a new state taking for his type and model C sar Borgia although the latter had failed in his schemes for the consolidation of his power in the Romagna The principles here laid down were the natural outgrowth of the confused political conditions of his time

History of Florence and of the Affairs of Italy Niccolò Machiavelli,2017-08-09 History of Florence and of the Affairs of Italy is an excerpt from Istorie fiorentine or Florentine Histories by Niccol Machiavelli published in 1532 and translated in 1847 by an unknown author It is a historical account by Machiavelli of The Florence history which was meant to be a eulogy for the Republic of Florence Odin s Library Classics is dedicated to bringing the world the best of humankind s literature from throughout the ages Carefully selected each work is unabridged from classic works of fiction nonfiction poetry or drama

History of Florence from the Earliest Times to the Death of Lorenzo the Magnificent Niccolò Machiavelli,1901

History of Florence and Italy Niccolo Machiavelli,2016-11-23 Excerpt the most successful and most enduring example of popular government Free Rome is the embodiment of his political idea of the state Much that Machiavelli says in this treatise is as true to day and holds as good as the day it was written And to us there is much that is of especial importance To select a chapter almost at random let us take Book I Chap XV Public affairs are easily managed in a city where the body of the people is not corrupt and where equality exists there no principality can be established nor can a republic be established where there is no equality No man has been more harshly judged than Machiavelli especially in the two centuries following his death But he has since found many able champions and the tide has turned The Prince has been termed a manual for tyrants the effect of which has been most pernicious But were Machiavelli s doctrines really new Did he discover them He merely had the candor and courage to write down what everybody was thinking and what

The History of Florence Niccolò Machiavelli,2010-05 Pope Leo X commissioned Machiavelli to write a history of Florence in 1520 In 1525 Machiavelli presented Pope Clement VII with eight books comprising the origin of Florence up to 1492 which was as much a tracing of the Medici family line as it was a political history Niccolo Machiavelli is also known for his other works The Art of War The Prince and Discourse on the First Ten Books of Titus Livy being a history of Rome

The History of Florence Niccolò Machiavelli,2015-06-17 Florentine Histories is a historical account by Italian Renaissance political philosopher and writer Niccolo Machiavelli first published posthumously in 1532 The composition of the work presented a problem for it was clear that the commission was not meant to give him the opportunity to eulogize republican Florence of which Machiavelli had been titled *il segretario* the secretary par excellence What was expected of him if not a glorification of the Medici family was a treatise without polemics and tending to show the present state of things as a natural evolution The perplexities of the

author leaked through from some letters of his rich collection to Francesco Guicciardini on August 30 1524 The structure of the work quite contorted illustrates the difficulty of the author The first of the eight books is a general picture of the history of Europe from the fall of the Western Roman Empire to 1215 the second book actually begins to discuss the history of Florence with the narration of the feud between Buondelmenti Donati and Uberti Amidei that according to tradition corroborated by Dante would unchain the conflict between Guelphs and Ghibellines in the city The books II III and IV narrate the history before the Medici rise while the last four speak of the fight for power that ended with the Medicean lordship The eighth book closes with the death of Lorenzo il Magnifico on 1492 with the end of the fragile peace that Lorenzo's politics of balance had carried The author made an effort to show under an altogether favorable light personalities like Cosimo il Vecchio and Lorenzo il Magnifico

Delve into the emotional tapestry woven by in Experience **History Of Florence And Italy** .
