The HMF 800-K model with dual Power Plus link arm system and mutual ground control or altered lift controls and flow control groups.

Superior strength and low tare weight, operational safety and a rust and wear resistant design make this crane an extremely versatile and powerful working tool.

This crane has up to 5 hydraulic extensions, and can be equipped with hydraulically extendable boom and swing-up platform legs (optional).

A well-proportioned hydraulic system, an optimized crane geometry and the PCS - Safety System guarantee an efficient, fast and safe HMF loaded crane.

It has been manufactured in high-tensile steel and with its particularly low tare weight and the longest reach within its range of use (max. 54.0 m for H2 version), there is a lot of power for lifting heavy loads at a long reach.
