Ahram,2019-01-09 Since 2011 civil wars and state failure have wracked the Arab world underlying the misalignment between national identity and political borders In *Break all the Borders* Ariel I Ahram examines the separatist movements that aimed to remake those borders and create new independent states With detailed studies of the Islamic State in Iraq and Syria the federalists in eastern Libya the southern resistance in Yemen and Kurdish nationalist parties Ahram explains how separatists captured territory and handled the tasks of rebel governance including managing oil exports electricity grids and irrigation networks Ahram emphasizes that the separatism arose not just as an opportunistic response to state collapse Rather separatists drew inspiration from the legacy of Woodrow Wilson and ideal of self determination They sought to reinstate political autonomy that had been lost during the early and mid twentieth century Speaking to the international community separatist promised a more just and stable world order In Yemen Syria Iraq and Libya they served as key allies against radical Islamic groups Yet their hopes for international recognition have gone unfulfilled Separatism is symptomatic of the contradictions in sovereignty and statehood in the Arab world Finding ways to integrate instead of eliminate separatist movements may be critical for rebuilding regional order

**Americans, Congress, and Democratic Responsiveness** David R Jones, Monika L McDermott, 2010-07-22 Jones and McDermott restore meaning to democratic responsibility by finding that public evaluations affect Congress In contrast to the popular depiction of the representatives controlling the represented rampant in the political science literature Jones and McDermott show that the people are in control determining not only the direction of policy in Congress but also who stays who retires and who faces difficult reelection efforts This book makes an important correction to our understanding of how Congress operates Sean M Theriault University of Texas at Austin Voters may not know the details of specific policies but they have a general sense of how well Congress serves their own interests and astute politicians pay attention to public approval ratings When the majority party is unpopular as during the 2008 election both voters and politicians take a hand in reconfiguring the House and the Senate Voters throw hard line party members out of office while candidates who continue to run under the party banner distance themselves from party ideology In this way public approval directly affects policy shifts as well as turnovers at election time Contrary to the common view of Congress as an insulated institution Jones and McDermott argue that Congress is indeed responsive to the people of the United States David R Jones is Professor of Political Science at Baruch College City University of New York Monika L McDermott is Associate Professor of Political Science at Fordham University
