

# House-Tree-Person Test

- Purported advantages over the DAP:
  - Patient's feelings about home in house
  - Less obvious
  - Tree reflects emotional history, self. Deeper unconscious
- Instructions:
  - Draw each picture, then follow-up questions
- Evaluation
  - Usually holistic interpretation
  - Interpreted much like DAP

**Psychonephrology 1** Norman B. Levy, 2013-06-29 Major nephrological and psychological organizations have at best set aside only small portions of their programs for papers or panels devoted to the psychological aspect of patients with end stage renal disease Thus the increased need for information concerning the psychological aspects of end stage renal disease has been met by occasional journal articles professional peer discussions small portions of national conferences and informal conversations and consultations with people with clinical and research experience in these areas The First International Conference on Psychological Factors in Hemodialysis and Transplantation arose out of a need to have a forum in which the major people involved in treatment and research in this area could share their latest work among themselves and with the registrants The initial encouragement for organizing such a conference came from the rank and file of nephrology social workers nephrology nurses and liaison psychiatrists and psychologists In early 1977 I had decided that I would make an

effort to organize such a meeting and asked the two other individuals most closely identified with major research in this area Atara Kaplan De Nour and Harry S Abram to join me in planning this conference With their support and suggestions concerning the program I embarked upon an attempt to raise financial backing for it I was somewhat surprised to find that the many equipment and drug companies supporting nephrological conferences were not greatly interested in this one
