Anthony Ekanem,2016-06-06 Of all the ways to make money online in my opinion article marketing is the easiest and best way for anybody to make their first dollar The best part is that without spending any more than the cost of a domain name you can create a passive income that can bring you money from an article that you wrote years ago So ask yourself Is spending a few minutes writing a 250 word article worth the time if it brings you money still years later I thought yes would be the answer I m sure you ve heard a ton of different opinions on how you should do article marketing and how you should provide the best information possible write informative articles and give your reader value and so on Well what you re about to read is probably going to go against a lot of what you have read and the article gurus are not going to like it but doing it this way has made me A LOT of money so I don t care if they agree with me or not I m going to do it the way it makes money and a way that continues to bring me money day in and day out If you are willing to put in the time to follow this method you WILL make money and a good amount of it What you need to remember is that there is no super highway to making money on the Internet You MUST stay consistent and motivated even when you get frustrated and feel like things are not going your way It is those who continue to work and promote their business that will in the end be successful So no more pep talks Let s get right into it *Article Writing Cash*
