Cheaponomics Michael Carolan,2014-03-21 Do you really think you are getting a good deal when given that free mobile phone for switching service providers if a multinational retailer undercuts its competitors or by the fact that food is relatively cheaper today in many countries than ever before Think again As Michael Carolan clearly shows in this compelling book cheapness is an illusion The real cost of low prices is alarmingly high It is shown for example that citizens are frequently subsidising low prices through welfare support to poorly paid workers in their own country or relying on the exploitation of workers in poor countries for cheap goods Environmental pollution may not be costed into goods and services but is paid for indirectly by people living away from its source or by future generations Even with private cars when the total costs of this form of mobility are tallied it proves to be an astronomically expensive model of transportation All of these costs need to be accounted for The author captures these issues by the concept of cheaponomics The key point is that costs and risks are socialised we all pay for cheapness but not at the point of purchase Drawing on a wide range of examples and issues from over consumption and waste to over work unemployment inequality and the depersonalising of communities it is convincingly shown that cheapness can no longer be seen as such a bargain Instead we need to refocus for a better sense of well being social justice and a balanced approach to prosperity

First Car Smarts Daniel E. Harmon,2009-08-15 This informative book provides everything your readers will need to know about negotiating the deal warranties and service contracts and getting a loan when buying their first car It offers helpful tips on fuel conservation buying hybrids and how to maintain the car The final chapter discusses smart cars cycles scooters and mopeds non car options

Product Lifecycle Management. Green and Blue Technologies to Support Smart and Sustainable Organizations Osiris Canciglieri Junior,Frédéric Noël,Louis Rivest,Abdelaziz Bouras,2022-02-08 The two volume set IFIP AICT 639 and 640 constitutes the refereed post conference proceedings of the 18th IFIP WG 5 1 International Conference on Product Lifecycle Management PLM 2021 held in Curitiba Brazil during July 11 14 2021 The conference was held virtually due to the COVID 19 crisis The 107 revised full papers presented in these proceedings were carefully reviewed and selected from 133 submissions The papers are organized in the following topical sections Volume I Sustainability sustainable development and circular economy sustainability and information technologies and services green and blue technologies AI and blockchain integration with

enterprise applications PLM maturity PLM implementation and adoption within industry 4.0 and industry 4.0 and emerging technologies Volume II Design education and management lean design and innovation technologies information technology models and design and models manufacturing and information technologies and services *The Economy of Algorithms* Marek Kowalkiewicz, 2024-03-05 Welcome to the economy of algorithms It's here and it's growing In the past few years we have been flooded with examples of impressive technology Algorithms have been around for hundreds of years but they have only recently begun to escape our understanding When algorithms perform certain tasks they're not just as good as us they're becoming infinitely better and at the same time massively more surprising We are so impressed by what they can do that we give them a lot of agency But because they are so hard to comprehend this leads to all kinds of unintended consequences In the 20th century things were simple we had the economy of corporations In the first two decades of the 21st century we saw the emergence of the economy of people otherwise known as the digital economy enabled by the internet Now we're seeing a new economy take shape the economy of algorithms

Communication and Intelligent Systems Jagdish Chand Bansal, Mukesh Kumar Gupta, Harish Sharma, Basant Agarwal, 2020-04-09 This book gathers selected research papers presented at the International Conference on Communication and Intelligent Systems ICCIS 2019 organised by Swami Keshvanand Institute of Technology Management Gramothan SKIT Jaipur India and Rajasthan Technical University Kota India on 9-10 November 2019 This book presents a collection of state-of-the-art research work involving cutting-edge technologies for communication and intelligent systems Over the past few years advances in artificial intelligence and machine learning have sparked new research efforts around the globe which explore novel ways of developing intelligent systems and smart communication technologies The book presents single and multi-disciplinary research on these themes in order to make the latest results available in a single readily accessible source

AI-Aided IoT Technologies and Applications for Smart Business and Production Alex Khang, Anuradha Misra, Shashi Kant Gupta, Vrushank Shah, 2023-12-01 This book covers the need for Internet of Things IoT technologies and artificial intelligence AI-aided IoT solutions for business and production It shows how IoT-based technology uses algorithms and AI models to bring out the desired results AI-Aided IoT Technologies and Applications for Smart Business and Production shows how a variety of IoT technologies can be used toward integrating data fabric solutions and how intelligent applications can be used to greater effect in business and production operations The book also covers the integration of IoT data-driven financial technology fintech applications to fulfill the goals of trusted AI-aided IoT solutions Next the authors show how IoT-based technology uses algorithms and AI models to bring out the desired results across various industries including smart cities buildings hospitals hotels homes factories agriculture transportation and more The last part focuses on AI-aided IoT techniques data analytics and visualization tools This book targets a mixed audience of specialists analysts engineers scholars researchers academics and professionals It will be useful to engineering officers IoT and AI engineers engineering and industrial management

students and research scholars looking for new ideas methodologies technologies models frameworks theories and practices to resolve the challenging issues associated with leveraging IoT technologies data driven analytics AI aided models IoT cybersecurity 5G sensors and augmented and virtual reality techniques for developing smart systems in the era of Industrial Revolution 4.0

Smart Sourcing A. Kakabadse, 2001-12-18 With a growing market currently in excess of 150 billion outsourcing has become a critical boardroom agenda Meeting this challenge Andrew and Nada Kakabadse answers key boardroom questions Q What will be the key areas of outsourcing in the future A IT and HR Q What supplier relationships work best partnerships joint ventures A No the preferred single supplier still provides best service Q Does well managed outsourcing make a difference A Substantially both strategic and operational As one of the largest international surveys on outsourcing Smart Sourcing highlights what it takes to be outsource ready and thus become a high performing company The message is focus on your strengths and know how to use others in order to clearly differentiate

Organizational Behavior Fred Luthans, Brett C. Luthans, Kyle W. Luthans, 2021-01-01 Contrary to the common saying we do want you to judge this new edition of Organizational Behavior by its front cover Specifically featured is that this is the 14th edition it takes an Evidence Based Approach and similar to the previous edition there are now three Luthans authors This 14th edition is based on the foundation provided by the first mainline text which has become the classic for the study and understanding of organizational behavior However by taking an evidence based approach this insures that even though a classic this new edition adds the most recent and relevant research to the most extensive up to date reference base of any organizational behavior text By adding the two closely related authors professor sons literally pumps new blood into the sustainability of this classic text by Fred Luthans Importantly Fred has recently been recognized with 1 Lifetime Achievement Award in Organizational Behavior 2 Top 1% of Citation Count of all researchers in the world and 3 the 1 most cited author in Organizational Behavior textbooks Finally this new edition recognizes that even though the theoretical framework and coverage largely remains the context of organizational behavior is rapidly changing This new edition reflects the New Age environment but still holds to the premise that in today's organizations success and competitive advantage still comes from the understanding prediction and effective management of human resources With this new edition we invite you to continue the never ending journey guided by the best organizational behavior theory research and application

International Symposium for Intelligent Transportation and Smart City (ITASC) 2017 Proceedings Xiaoqing

Zeng,Xiongyao Xie,Jian Sun,Limin Ma,Yinong Chen,2017-04-06 This book presents research advances in intelligent transportation and smart cities in detail mainly focusing on green traffic and urban utility tunnels presented at the 3rd International Symposium for Intelligent Transportation and Smart City ITASC held at Tongji University Shanghai on May 19 20 2017 It discusses a number of hot topics such as the 2BMW system Bus Bike Metro and Walking transportation safety and environmental protection urban utility design and application as well as the application of BIM Building Information Modeling in city design By connecting the theory and applications of intelligent transportation in smart cities it enhances traffic efficiency and quality The book gathers numerous selected papers and lectures including contributions from respected scholars and the latest engineering advances to provide guidance to researchers in the field of transportation and urban planning at universities and in related industries The first conference in the ITASC series started in 2013 as a workshop of The International Symposium on Autonomous Decentralized System ISADS held in Mexico City and the second was held in May 2015 in Tongji University Shanghai
