Broadcasting the Local News Lynn Boyd Hinds,2010-11-01 Television came to Pittsburgh in 1949 when WDTV the forerunner of KDKA TV went on the air Whereas many television stations in the United States began reading news on the air only to comply with FCC requirements WDTV treated news seriously from day one with its first regular program a local news show called Pitt Parade Today KDKA is still highly regarded among journalists for its news programming Although television news may seem familiar to us it was anything but familiar to the men and women of early television Hinds shows how they borrowed liberally from newspapers radio motion picture newsreels theater and even magazines to create by trial and error suitable ways to present the news Rather than instantly replacing radio television news moved slowly from the rip and read radio style format which simply duplicated what came over the wire services and was in the newspapers to the conventions of local newscasts we take for

granted today live remotes lead and feature stories sports and weather all brought together by an in studio anchor Pittsburghers will recognize many familiar names in Hinds s account Bill Burns Paul Long Florence Sando Eleanor Schano and others veterans of Pittsburgh broadcasting whom Hinds has interviewed for this book The story they tell is the story of dozens of other stations across the country In the process they tell us much about the early history of television in America Lynn Boyd Hinds spent over twenty years in Pittsburgh television and radio before moving to Penn State University where he was an affiliate producer for WPSX TV the public broadcasting station in Central Pennsylvania There he created and hosted the popular quiz show The Pennsylvania Game Today he is Associate Professor of Broadcast News in the Perley Isaac Reed School of Journalism at West Virginia University *Library of Congress Catalogs* Library of Congress,1977 *Now the News* Edward Bliss, Jr.,2010-06-01 Walter Cronkite **Book Publishers Directory** ,1983 Waves of Rancor Robert L. Hilliard,Michael C. Keith,1999 The authors also present the work of groups working to counter the efforts of these right wing groups such as the Southern Poverty Law Center the Anti Defamation League the Coalition to Halt Hate Radio and Political Research Associates **BOOK JACKET** Indomitable Will Charles Kupfer,2012-04-05 Some of the worst military disasters in U S history occurred between Pearl Harbor on December 7 1941 and the Battle of Midway in June 1942 During this period the American people faced a barrage of bad news and accounts of defeats and retreats Yet if they were shocked and dismayed they showed little panic Indomitable Will resurrects the legacy of this first half year of American combat during WWII a legacy of pain but not of woe Historian Charles Kupfer recounts the story of the war s early defeats Bataan Corregidor Wake Island and the Java Sea Some of these battles remain evocative today others are obscure all were catastrophes for American arms Kupfer asserts however that later victories were made inevitable by the steeling effect of those initial disasters Weaving together military journalistic political and cultural histories this engaging book shows that by setting their collective will on victory Americans in and out of uniform gained strength from their setbacks Indomitable Will spells out how the nation turned early defeat into ultimate victory *The Only Constant is Change* Ben Epstein,2018 Over the course of American political history political elites and organizations have often updated their political communications strategies in order to achieve longstanding political communication goals in more efficient or effective ways But why do successful innovations occur when they do and what motivates political actors to make choices about how to innovate their communication tactics Covering over 300 years of political communication innovations Ben Epstein shows how this process of change happens and why To do this Epstein following an interdisciplinary approach proposes a new model called the political communication cycle that accounts for the technological behavioral and political factors that lead to revolutionary political communication changes over time These changes at least the successful ones have been far from gradual as long periods of relatively stable political communication activities have been disrupted by brief periods of dramatic and permanent transformation These transformations are driven by political actors and organizations and tend to follow predictable patterns Epstein moves

beyond the technological determinism that characterizes communication history scholarship and the medium specific focus of much political communication work The book identifies the political communication revolutions that have in the United States led to four relatively stable political communication orders over history the elite mass broadcast and the current information orders It identifies and tests three phases of each revolutionary cycle ultimately sketching possible paths for the future The Only Constant is Change offers readers and scholars a model and vocabulary to compare political communication changes across time and between different types of political organizations This provides greater understanding of where we are currently in the recurring political communication cycle and where we might be headed *Radio Journalism in America* Jim Cox,2013-04-06 This history of radio news reporting recounts and assesses the contributions of radio toward keeping America informed since the 1920s It identifies distinct periods and milestones in broadcast journalism and includes a biographical dictionary of important figures who brought news to the airwaves Americans were dependent on radio for cheap entertainment during the Great Depression and for critical information during the Second World War when no other medium could approach its speed and accessibility Radio s diminished influence in the age of television beginning in the 1950s is studied as the aural medium shifted from being at the core of many families activities to more specialized applications reaching narrowly defined listener bases Many people turned elsewhere for the news And now even TV is challenged by yet newer media The introduction of technological marvels throughout the past hundred years has significantly altered what Americans hear and how when and where they hear it **Journalism's Roving Eye** John Maxwell Hamilton,2011-08-15 A sweeping and definitive history of American foreign news reporting from its inception to the present day Chronicles the economic and technological advances that have influenced overseas coverage as well as the cavalcade of colorful personalities who shaped readers perceptions of the world across two centuries from publisher description *Publishers Directory* ,1994 *A Reference Guide to Audiovisual Information* James L. Limbacher,1972 **Writing Broadcast News** Mervin Block,1997 The author offers clear advice and examples on broadcast journalism and elements that distinguish writing for broadcast news from writing for print sources
