Daft Punk and the Legacy Album Sébastien Lebray, 2025-05-15 While much has been said about the nostalgia and historic references of Daft Punk's final album Random Access Memories this book reveals its ambition and future focus and claims these aspects do not necessarily contradict Random Access Memories will remain the very last Daft Punk album Often understood as an expression of nostalgia towards the music of the 1970s 1980s this work should not be reduced to a simple tribute to the masters of disco Beyond their retro airs their interest in old studios and their preference for analogue equipment Daft Punk invent new creative approaches in the continuity of the history of electronic music leaving more room for humanity and collective performance The band claims audacity and ambition in a way that is reminiscent of the spirit more than in the style of 1970s progressive rock with characteristics such as the expansion of the instrumentarium experimentation in the recording studio and the development of structures Concerned with opening up new ways without giving in to a technician headlong rush Random Access Memories appears to be a work of its era much more than a pastiche of the past

Browning, Victorian Poetics and the Romantic Legacy Dr Britta Martens, 2013-05-28 Taking an original approach to Robert Browning's poetics Britta Martens focuses on a corpus of relatively neglected poems in Browning's own voice in which he reflects on his poetry his self conceptualization and his place in the poetic tradition She analyzes his work in relation to Romanticism Victorian reactions to the Romantic legacy and wider nineteenth century changes in poetic taste to argue that in these poems as in his more frequently studied dramatic monologues Browning deploys varied dramatic methods of self representation often critically and ironically exposing the biases and limitations of the seemingly authoritative speaker Browning The poems thus become devices for Browning's detached evaluation of his own and of others poetics an evaluation never fully explicit but presented with elusive economy for the astute reader to interpret The confrontation between the personal authorial voice and the dramatic voice in these poems provides revealing insights into the poet's highly self conscious conflicted and sustained engagement with the Romantic tradition and the diversely challenging reader expectations that he faces in a post Romantic age As the Victorian most rigorous in his rejection of Romantic self expression Browning is a key transitional figure between the sharply antagonistic periods of Romanticism and Modernism He is also as Martens persuasively demonstrates a poet of complex contradictions and an illuminating case study for addressing the perennial issues of voice authorial authority and self reference
