Social-Emotional

As Social-Emotional Learning

High:

This student consistently demonstrates a high level of emotional intelligence, effectively expressing and managing their feelings during mathematics activities. They not only exhibit a strong understanding of their own emotions but also show empathy towards their peers, fostering positive relationships. Their resiliency in tackling challenging math problems reflects in their ability to respond to stress with resilience. Moreover, they approach problem-solving with optimism and embrace mistakes as valuable learning opportunities. Additionally, the student actively engages in collaborative math activities, expressing their thoughts clearly, listening to others, and promoting inclusivity. They confidently see themselves as capable math learners and connect mathematical concepts to real-life situations, showcasing a profound sense of ownership and identity in their learning journey.

Medium:

This student generally expresses and manages their feelings adequately during mathematics activities. They demonstrate an understanding of the emotions of others, contributing positively to the collaborative math process. While they exhibit resiliency in using various strategies to address stress, there is room for improvement in consistently applying these techniques. The student is on track in recognizing the importance of testing different problem-solving approaches and learning from mistakes, although occasional challenges with maintaining optimism and hope may impact their resilience. Their participation in collaborative math activities is commendable, but there is potential for further growth in expressing thoughts more explicitly and practicing inclusivity. The student recognizes themselves as math learners but may benefit from additional efforts to strengthen their sense of ownership and connection between math and everyday contexts.

Low:

This student struggles with expressing and managing their feelings during mathematics activities. Their understanding of the emotions of others is limited, hindering positive engagement with peers. While they make attempts to use various strategies to cope with stress,
