Nariz De Vidro:

Daqui fala o Sam DUSTIN THAO, **Play and Power in Religion** André Droogers, 2011-11-30 At a religion's margins a counterpoint can be found for its power center In a creative manner relatively free from clerical control religious virtuosos take new initiatives there Inspired by their experience with the sacred they explore their liberty to play with meanings images and practices Yet the eventual success of such an innovation calls for organization and thus for the exercise of power Accordingly new movements slow down into institutions till a new virtuoso brings the cycle to a fresh start Over the last thirty years Andr Droogers has extensively published on the relation between religion power and play In this collection of essays the most relevant articles are reprinted For this volume Droogers wrote an autobiographical introduction showing how the contingencies of a career may nevertheless lead to a more or less consistent approach In Part I of the book articles are included that represent the basic ideas of Droogers approach with an emphasis on margin inversion ritual and meaning making In part II some of his articles on syncretism and Pentecostalism illustrate his views Part III contains articles that apply the play and power perspective to methodological issues in the study of religion , *Sabedoria Das Parábolas!* , *Polyanthea medicinal. Noticias galenicis, e chymicas, repartidas en tres tratados ... Terceyra vez impressas, & augmentadas.* [With "Manifesto que o doutor Joam Curvo Semmedo ... faz aos amantes da saude, etc." With a portrait.] João CURVO SEMMEDO, 1716 **The Diario of Christopher Columbus's First Voyage to America, 1492-1493**, 1989 This definitive edition of Columbus's account of the voyage presents the most accurate printed version of his journal available to date Unfortunately both Columbus's original manuscript presented to Ferdinand and Isabella along with other evidence of his discoveries and a single complete copy have been lost for centuries The primary surviving record of the voyage part quotation part summary of the complete copy is a transcription made by Bartolome de las Casas in the 1530s This new edition of the Las Casas manuscript presents its entire contents including notes insertions and canceled text more accurately completely and graphically than any other Spanish text published so far In addition the new translation which strives for readability and accuracy appears on pages facing the Spanish encouraging on the spot comparisons of the translation with the original Study of the work is further facilitated by extensive notes documenting differences between the editors transcription and translation and those of other transcribers and translators and summarizing current research and debates on unanswered current research and debates on unanswered questions concerning the voyage In addition to being the only edition in which Spanish and English are presented side by side this edition includes the only concordance ever prepared for the Diario Awaited by scholars this new edition will help reduce the guesswork that has long plagued the study of Columbus's voyage It may shed light on a number of issues related to Columbus's navigational methods and the identity of his landing places issues whose resolution depend at least in part on an accurate transcription of the Diario Containing day by day accounts of the voyage and the first sighting of land of the first encounters with the native populations and the first

appraisals of his islands explored and of a suspenseful return voyage to Spain the *Diario* provides a fascinating and useful account to historians geographers anthropologists sailors students and anyone else interested in the discovery or in a very good sea story Oliver Dunn received the PH D degree from Cornell University He is Professor Emeritus in Purdue University and a longtime student of Spanish and early history of Spanish America James E Kelley Jr received the M A degree from American University A mathematician and computer and management consultant by vocation for the past twenty years he has studied the history of European cartography and navigation in late medieval times Both are members of the Society for the History of Discoveries and have written extensively on the history of navigation and on Columbus s first voyage Although they remain unconvinced of its conclusions both were consultants to the National geographic Society s 1986 effort to establish Samana Cay as the site of Columbus s first landing
