Joseph Conrad David J. Supino, 2022-08-13 David J. Supino traces in unprecedented detail the lineaments of Joseph Conrad's authorial career and the fortunes and misfortunes of his publishers on both sides of the Atlantic. This work is a model of the integrative scholarly method combining close bibliographical scrutiny of particular textual artifacts with archival recovery of book historical information in as much detail as the surviving documents allow. The Publishers Weekly, 1889 Catalog of the Library of the Museum of Modern Art: Eh Museum of Modern Art (New York, N.Y.). Library, 1976 *The Global Politics of Globalization* Barry K. Gills, 2013-09-13 Are we moving inexorably towards a new empire or is global civil society transforming global politics into a new cosmopolis? In *The Global Politics of Globalization* the alternatives of Empire and Cosmopolis are counterpoised as representative of two antithetical conceptions and practices of world order both historically and in the present era and each expresses an alternative idea of human unity and community. Today global politics is embroiled in a clash of globalizations, a clash between these two opposed forms of world order. The contributions in the debate range from deep historical reflections on world civilizations' critique of neoliberal economics and imperialism to new thinking on the ideals and practices of global citizenship, the philosophical basis for cosmopolitan politics and the emergence of new forms of global social forces and movements. Previously published as a special issue of *Globalizations*, this book brings together a very distinguished set of contributors to explore and debate the relationship between globalization processes and world order in light of recent controversies over the return of empire.

Impossible Puzzle Films Miklos Kiss, 2017-04-28 Narrative complexity is a trend in contemporary cinema. Since the late 1990s there has been a palpable increase in complex storytelling in movies. But how and why do complex movies create perplexity and confusion? How do we engage with these challenges? And what makes complex stories so attractive? By blending film studies, narrative theory, and cognitive sciences, Kiss and Willemsen look into the relation between complex storytelling and the mind. Analysing the effects that different complex narratives have on viewers, the book addresses how films like *Donnie Darko*, *Mulholland Drive*, and *Primer* strategically create complexity and confusion using the specific category of the impossible puzzle film to examine movies that use baffling paradoxes, impossible loops, and unresolved ambiguities in their stories and storytelling. By looking at how these films play on our mind's blind spots, this innovative book explains their viewing effects in terms of the mental state of cognitive dissonance that they evoke. **Catalog of Copyright Entries.**
