

American History: 1789 – 1837 (Study Guide)

Washington Through Jackson

Topic 1: The First Four Presidents

- What issue(s) caused the formation of political parties in the 1790's?
When the constitution was being ratified, there was a question of should the how much power should the federal government have and the federalist party and the anti federalist formed. These differences mainly came from Hamilton and Jefferson, as they had so many different thoughts, and those who believed in Hamilton's indeed were the federalist, and those who believed in Jefferson's were called the republicans.

Hamilton's views:

- concentrating power in the federal government
- fear of mob rule
- strong national government
- republic of a wise elite
- thought that the national bank was constitutional
- economy based on shipping and manufacturing
- payment of national and state debts
- supporters: merchants, landowners, clergy, richer class

Jefferson's Views:

- sharing power with state and local government
- fear of absolute power (monarch or monarchy)
- limited national government
- democracy of farmers and common folk
- National Bank unconstitutional
- economy based on farming
- supporters: common folk, farmers

- What were the major challenges George Washington faced when he took over as president?
 - Although the constitution did provide a government, it did not address all issues, so Washington and congress had to come up ways in which they could raise money, and provide a defense. He also did the Judiciary Act.
