Social Work with Children and Families Steve Rogowski,2016-04-20 Professional social work has changed considerably over the last forty years coinciding with the demise of the social democratic consensus of the post war years and the emergence and now domination of neoliberalism Rather than the state through the government of the day ensuring citizens basic needs were met via the welfare state the belief in free market economics entails people having to be self reliant and self responsible This has involved social work with children and families moving from a helping and supportive role to one that is more authoritarian this often involving telling parents to change their behaviour and lifestyle or face the consequences This book outlines the development of social work with children and families over the period in question drawing on the author s unique practice experience and his extensive writings It charts the highs and lows of social work the latter including the dominance of managerialism which emphasises speedy completion of bureaucracy so as to ration resources and assess manage risk Despite this the argument is for a critical practice which addresses service users immediate needs while simultaneously aiming towards a more socially just and equal society This book is essential reading for everyone interested in social work including academics students practitioners and managers both in the UK and overseas Social care and allied professionals more generally will also find it insightful as will academics students and educators of social policy and related disciplines

Deciding Children's Futures Joyce Scaife,2024-07-19 The second edition of Deciding Children s Futures addresses the

thorny task of assessing parents and children who belong to struggling families where there are issues of neglect or significant harm and when separating parents are contesting arrangements for the care of their children in the family court. This practitioner's guide discusses how to create relationships and pose questions that breach natural parental defences to understand their histories, anxieties and needs. Drawing on practice knowledge, theory and research findings, it integrates the accounts of parents and children with safeguarding imperatives and government guidance to enable informed decisions that positively impact children's futures. Chapters address issues such as drug and alcohol misuse, mental health difficulties and learning disabilities. Fabricated or Induced Illness, FII, abuse and alienation of children and encourage readers to consider the impact of their own values, histories and beliefs on the assessment process. This edition is completely updated to reflect all the factors that have impacted assessments for the family court, including updates to case law and procedure rules, devolution of governments and updates to DSM and ICD diagnostic categories. Providing a comprehensive understanding of assessment for the family court, this user-friendly volume will be of great interest to expert witnesses, social workers, mental health professionals, solicitors and anyone working in the family court system.

Practices in Children's Nursing E-Book Ethel Trigg, Toby Mohammed, Louise Ford, Hermione Montgomery, Vicky Vidler, 2010-06-17. The skills required by children's nurses are many and varied and are undertaken in a variety of settings. Sick children are cared for at home, in children's units and hospitals and sometimes in adult wards. In addition, children with disabilities may need nursing care while at special schools or in residential settings. This book provides a clinical manual of common practices. Each practice is research-based and presented in a common format which covers Objectives, Rationale, Factors to note, Guidelines, Positioning, Equipment, Method, Special observations and possible complications, References and further reading. The guidelines have been written specifically for children's nursing by contributors from well-known children's units. They are not simply adaptations from adult practices and therefore recognise the unique differences between adult and children's nursing. The introductory section covers common concepts and infection control. There is also a chapter on complementary therapies and an appendix on the use of play as a distraction. All hospital and community nurses dealing with children, whether at home, in specialised units or in community settings, will find the book of great practical help. The common format of each practice makes the book easy to use and refer to in a clinical setting. Each practice is based on the latest research to ensure it is evidence-based and up to date. Introductory chapters cover issues common to all practices to make the book easier to use. The appendix on play reinforces its common usage as a distraction technique. A chapter on complementary therapies explains these as they are becoming more widespread. All practices have been reviewed by regional centres to avoid parochialism. Content reorganised to reflect the Essential Skills Clusters from the NMC. New chapter on communicating with children. All chapters updated to reflect the current evidence base.
