From Goodwill to Grunge Jennifer Le Zotte, 2017-02-02 In this surprising new look at how clothing style and commerce came together to change American culture Jennifer Le Zotte examines how secondhand goods sold at thrift stores flea markets and garage sales came to be both profitable and culturally influential Initially selling used goods in the United States was seen as a questionable enterprise focused largely on the poor But as the twentieth century progressed multimillion dollar businesses like Goodwill Industries developed catering not only to the needy but increasingly to well off customers looking to make a statement Le Zotte traces

the origins and meanings of secondhand style and explores how buying pre owned goods went from a signifier of poverty to a declaration of rebellion Considering buyers and sellers from across the political and economic spectrum Le Zotte shows how conservative and progressive social activists from religious and business leaders to anti Vietnam protesters and drag queens shrewdly used the exchange of secondhand goods for economic and political ends At the same time artists and performers from Marcel Duchamp and Fanny Brice to Janis Joplin and Kurt Cobain all helped make secondhand style a visual marker for youth in revolt
