[sections] 901-End ,2013 Preface 2012 edition The United States Code is the official codification of the general and  
permanent laws of the United States The Code was first published in 1926 and a new edition of the code has been published  
every six years since 1934 The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth  
Congress Second session the last of which was signed by the President on January 15 2013 It does not include laws of the  
One Hundred Thirteenth Congress First session enacted between January 3 2013 the date it convened and January 15 2013  
By statutory authority this edition may be cited U S C 2012 ed As adopted in 1926 the Code established prima facie the  
general and permanent laws of the United States The underlying statutes reprinted in the Code remained in effect and  
controlled over the Code in case of any discrepancy In 1947 Congress began enacting individual titles of the Code into  
positive law When a title is enacted into positive law the underlying statutes are repealed and the title then becomes legal  
evidence of the law Currently 26 of the 51 titles in the Code have been so enacted These are identified in the table of titles  
near the beginning of each volume The Law Revision Counsel of the House of Representatives continues to prepare  
legislation pursuant to 2 USC 285b to enact the remainder of the Code on a title by title basis into positive law The 2012  
edition of the Code was prepared and published under the supervision of Ralph V Seep Law Revision Counsel Grateful  
acknowledgment is made of the contributions by all who helped in this work particularly the staffs of the Office of the Law

Committee, 2012 The European Commission proposes that 30% of direct payments made to farmers under the Common Agricultural Policy CAP would be conditional on compliance with three new greening measures While supporting the Commission's desire to improve the environment the EFRA Committee rejects the approach proposed Instead it calls for the EU to set high level objectives for the CAP that provide for flexibility to apply the right measures for local conditions through decentralising environmental protection under the CAP to Member States This report highlights the huge benefit that UK agri environment schemes have brought to biodiversity food production and the countryside The Committee also urged Defra to ensure that the UK's tenant farmers should not be excluded from these schemes The Committee concludes that Defra must ensure the balance of funding between mandatory and voluntary aspects of the CAP should not leave UK farmers at a competitive disadvantage relative to their counterparts in the rest of Europe MPs also warn that measures proposed by the Commission would be even more complex than the current system adding costly bureaucracy and generating more errors in the system Likewise the committee concludes that the Commission's crop diversification measure would in the UK have perverse consequences that are far less environmentally beneficial than crop rotation Of the three greening measures offered the Commission's proposal for Ecological Focus Areas EFA has the potential to deliver the greatest environmental benefit However the lack of definitions within the proposals make it difficult to assess what if any such benefits would actually be delivered
