principal guided by the teachings of Fullan and Hargreaves takes on the role of school leader in an inner city charter school

demonstrates the reality on a day to day basis of what s worth fighting for in schools Student and teacher engagement and
empowerment matter and to get to such ends a school must fiercely focus on targets well beyond test scores This book
speaks about how a budget reveals school values and by shifting resources to support staff and student development a school
coping with regular turnover can be filled with more confident and capable community members A school crawling with
leaders emerged as more student teacher and non instructional staff were supported in new roles aimed at building an
inspired culture with the talent and capacity to move others to action The old ways of doing school do not address the needs
of the 21st century learner and while many forces with limited views of education were at play this story does provide an
example of what promising things can and should happen to increase engagement and learning in more charter schools
across America Dr Barbara Smith s narrative of her times in public charter schools offers all of us insights into the struggle
to create schools of high academic quality and compassionate care worthy of her educational mandate and mission David
