Tanzil Multazam, Andri Kesmawan, Krisna Puji Rahmayanti, 2020-08-12 Following the successful of previous conference 3rd International Conference on Administrative Science Policy and Governance Studies ICAS PGS in strategic alliance with 4th International Conference of Business Administration and Policy ICBAP 2019 will be held on October 30 31 2019 in Universitas Indonesia Depok West Java Indonesia This year's conference theme is Strengthening Strategic Administrative Reform Policy to Promote Competitiveness and Innovation in Industrial Revolution 4.0 The Opportunities and Challenges This conference is hosted by Faculty of Administrative Science Universitas Indonesia FIA UI The conference covers debates over problematic situation theoretical frameworks as well as prescribed policies the way that governments businesses and civil societies essentially need to outline strategies to realize reform commitment and achieve change efficacy for purposes of harnessing innovation while considering the opportunities and challenges as well as maintaining sustainability engaging in a more dynamic predicament such as regulatory frameworks that affect relations of multiple governance actors in today's dynamic towards Industrial Revolution 4.0 The main objective of this conference is to discuss and debate the recent trends in administrative science on a range of issues such as public business and fiscal and the interconnectedness of all in Industrial Revolution 4.0 This conference is aimed to bring researchers academicians scientists policymakers professional managers students and other related stakeholders together to participate and present their latest research findings developments and practical solutions related to the various aspects of administrative challenges in public and private sector The general theme of 3rd ICAS PGS and 4th ICBAP 2019 is Strengthening Strategic Administrative Reform Policy to Promote Competitiveness and Innovation in Industrial Revolution 4.0 The Opportunities and Challenges The conferences consist of three streams representing differences of focus and scopes of research interests within the discipline of public business and fiscal administration and policy We convey our gratitude to our esteemed Committee Speakers and Participants for giving their best to the success of the conference The School-to-Prison Pipeline Peter

Thalheim, 2022-05-02 The school to prison pipeline is not what it is popularly advertised to be by the major media whereby the installation of safety officers and security personnel in schools to protect the learning environment for all the students leads to mostly young men of color getting a record for disruptive behavior and being channeled into prison as the logical result of attending K 12 public schools Rather the school to prison pipeline is a conduit opened and maintained by the statists those who promote the state before the citizen to keep as many students as possible in the public school monopoly so that the two leading teacher unions the National Education Association and the American Federation of Teachers maintain as many dues paying members as possible and to increase the number of dues payers regardless of its impact on our children The promoters of the school to prison pipeline deny African American Hispanic Asian white and other students of color from high needs socioeconomic backgrounds a choice of where to go to school If these parents or guardians want their children to go to

a public charter or to use a voucher to select another private option that is where the inquiry should end the simple choice by their parents and guardians Instead the state wins by keeping more people in the state run pipeline The public unions win by keeping more unionized school staff and keeping the dues gravy train coming in to support unions who in turn use their political strength to help elect candidates who favor unionized public schools versus school choice for our children and young people How do the children win if their education options are artificially restricted The students lose by being blocked in sometimes failing public schools with no viable choice to go elsewhere And the poorer you are the fewer choices you generally have This denial of school choice would particularly impact black students as blacks have disproportionately less money than the average American

Beyond Shanghai and PISA Binyan Xu,Yan Zhu,Xiaoli Lu,2021-05-07 This book seeks to illustrate the research on mathematics competencies and disposition in China according to the conceptual development and empirical investigation perspective Mathematics education in China has a distinguishing feature a focus of attention to mathematical competency Paradoxically there has not been an explicit refined and measurable evaluation system in place to assess mathematical competency in China While academic achievement surveys or evaluations are common these can only give an overall conclusion about mathematical thinking skills or problem solving abilities In response to this deficiency China is beginning to carry out national projects that emphasize defining both a conceptual framework on core competencies in school mathematics and developing a corresponding assessment framework Thus the main focus of this volume is the current investigations of different mathematics competencies and mathematical disposition of Chinese students with the aim of promoting interaction between domestic and international student performance assessment to provide a more comprehensive understanding of mathematics competencies and disposition in mainland China and to stimulate innovative new directions in research The primary audience of this volume is the large group of researchers interested in mathematics competencies mathematics teaching and learning in China or comparative studies or the relation of the three The book will also appeal to teaching trainers or instructors as well as be an appropriate resource for graduate courses or seminars at either the master s or doctoral level
