The Hatco Toast-Qwik is an economical conveyor toaster with fast, dependable and versatile toasting, offering 350 to 1200 slices per hour. Hatco toasters utilize conveyor speed, not temperature to determine toasting color. This method allows for instant adjustment of toasting time to match the bread product being toasted.

FLEXIBILITY

For uniformly colored golden-brown toast, as well as bagels, buns, and English muffins, Toast-Qwik Conveyor Toasters provide the optimum in features, quality and value. The electronic controls precisely regulate both top and bottom heating elements for perfect toasting every time. The exclusive, patented Colorguard sensing system monitors cabinet temperature and adjusts conveyor speed during high usage periods to assure uniform toast. The power save mode with indicator light saves energy and money during slow periods.

Hatco versatility offers standard and bagel models, as well as versions with a taller opening for thicker products and a high-speed model. The efficient design of front or rear discharge allows Toast-Qwik to be placed where it is most convenient – for sending product to operator side or customer/server.

Hatco Toast-Qwik toasters feature permanently lubricated ball bearing motor and heating elements guaranteed against burnout and breakage for two years.
