With the Hawking CS154F, there is no better way to save time and money. The 4-port KVM Switch is an ideal SOHO solution for controlling four computers with a single Keyboard, Monitor and Mouse. By allowing a single console to manage all the attached PCs, the 4-port KVM Switch eliminates the expense of purchasing a separate keyboard, monitor and mouse for each PC, and saves all the extra space as well. It also eliminates the inconvenience and unnecessary effort involved in constantly moving around from one PC to another.

Setup is fast and easy; all that is required is for the user to plug the cables into the appropriate ports and there is no software to configure. Furthermore, the CS154F provides two convenient methods to access any PC connected to the system: (1) using the push button port selection switch located on top of the unit's panel; (2) entering HotKey combinations from the keyboard. In addition, a powerful Quick View Scan feature allows you to auto scan and monitor the activities of all operating PCs on the installation one by one.

Features:

- Control Up to 4 PCs From a Single Console
- No Software Required - PC Selection via "Select" button on the Switch, HotKey combinations
