Harper's Book of Facts Charlton Thomas Lewis, 1906

The World Bank Devesh Kapur, John P. Lewis, Richard C. Webb, 2011-08-01 This effort constitutes the most comprehensive and authoritative work to date on the history of the International Bank for Reconstruction and Development or the World Bank. Author editors John Lewis, Richard Webb and Devesh Kapur chronicle the evolution of this institution and offer insights into its successes, failures and prospects for the future. The result of their intense labors is an invaluable resource for other researchers and a fascinating study in its own right. The work is divided into two volumes. The first is organized thematically and examines the critical events and policy issues in the World Bank's development over the last fifty years. Chapter topics include poverty alleviation, structural adjustment, lending, environmental programs, the International Finance Corporation (IFC), the International Development Association (IDA) and the evolution of the Bank as an institution. The second volume contains case studies written by experts with experience in the various regions in which the Bank operates. There are chapters on the Bank's activities in Korea, Mexico, Africa, South Asia and Eastern Europe. Volume 2 also contains essays on the World Bank's relationship with the United States, Japan and Western Europe and its

partnership with the International Monetary Fund IMF By special arrangement the authors have had wide ranging access to confidential documents at the World Bank making this work a unique source of information on the internal workings of this critical institution They have also drawn on extensive interviews with current and past Bank officials Moreover publication could not be more timely coming as it does when many in the development community and in the U S Congress are questioning the Bank s track record and even its reason for existence The World Bank Its First Half Century will be of great interest not only to development practitioners but also to students of international relations development economics and global finance During the course of the project John P Lewis and Richard Webb were nonresident senior fellows and Devesh Kapur was a program associate in the Foreign Policy Studies program at the Brookings Institution *Resources in Education* ,1999-04

A Critical History of the Economy Ryan Walter,2013-03-01 Drawing on recent debates in critical International Political Economy this book mobilizes the idea that the economy does not exist separately from society and politics to develop a detailed intellectual history of how the economy came to be seen as an independent domain In contrast to typical approaches to writing the history of economic thought which assume the reality of the economy the author describes the forms of intellectual argument that made it possible to conceive of the national and international economies as objects of intellectual inquiry At the centre of this process was the analytical separation of power and wealth Walter thus offers a broad historical perspective on the emergence of current IPE theory while linking the field with contextualist intellectual history This important and innovative volume will be of strong interest to students and scholars of International Political Economy International Relations Economics History and Political Theory **Index Medicus** ,2004 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings
