the Year ... , 1915 **The Good Neighbour: Volume 5, The Official History of Australian Peacekeeping,**

Humanitarian and Post-Cold War Operations Bob Breen, 2016-07-15 The Good Neighbour explores the Australian government's efforts to support peace in the Pacific Islands from 1980 to 2006. It tells the story of the deployment of Australian diplomatic, military and policing resources at a time when neighbouring governments were under pressure from political violence and civil unrest. The main focus of this volume is Australian peacemaking and peacekeeping in response to the Bougainville Crisis, a secessionist rebellion that began in late 1988 with the sabotage of a major mining operation. Following a signed peace agreement in 2001, the crisis finally ended in December 2005 under the auspices of the United Nations. During this time, Australia's involvement shifted from behind-the-scenes peacemaking to armed peacekeeping intervention and finally to a longer-term unarmed regional peacekeeping operation. Granted full access to all relevant government files, Bob Breen recounts the Australian story from decisions made in Canberra to the planning and conduct of operations.

Time before History H. Trawick Ward, R. P. Stephen Davis Jr., 2018-06-15 North Carolina's written history begins in the sixteenth century with the voyages of Sir Walter Raleigh and the founding of the ill-fated Lost Colony on Roanoke Island. But there is a deeper, unwritten past that predates the state's recorded history. The region we now know as North Carolina was settled more than 10,000 years ago, but because early inhabitants left no written record, their story must be painstakingly reconstructed from the fragmentary and fragile archaeological record they left behind. *Time before History* is the first comprehensive account of the archaeology of North Carolina. Weaving together a wealth of information gleaned from archaeological excavations and surveys carried out across the state from the mountains to the coast, it presents a fascinating, readable narrative of the state's native past across a vast sweep of time from the Paleo Indian period, when the first immigrants to North America crossed a land bridge that spanned the Bering Strait, through the arrival of European traders and settlers in the sixteenth and seventeenth centuries.
