History of Operations Research in the United States Army, V. 1, 1942-1962 Charles R. Shrader, 2006-10-05 Operations research OR emerged during World War II as an important means of assisting civilian and military leaders in making scientifically sound improvements in the design and performance of weapons and equipment OR techniques were soon extended to address questions of tactics and strategy during the war and after the war to matters of high level political and economic policy Until now the story of why and how the U S Army used OR has remained relatively obscure surviving only in a few scattered official documents in the memories of those who participated and in a number of notes and articles that have been published about selected topics on military operations research However none of those materials amounts to a comprehensive coherent history In this the first of three planned volumes Dr Charles R Shrader has for the first time drawn together the scattered threads and woven them into a well focused historical narrative that describes the evolution of OR in the U S Army from its origins in World War II to the early 1960s He has done an admirable job of ferreting out the surviving evidence shaping it into an understandable narrative and placing it within the context of the overall development of American military institutions Often working with only sparse and incomplete materials he has managed to provide a comprehensive history of OR in the U S Army that offers important insights into the natural tension between military leaders and civilian scientists the establishment and growth of Army OR organizations the use and abuse of OR techniques and of course the many important contributions that OR managers and analysts have made to the growth and improvement of the Army since 1942 In this volume Dr Shrader carries the story up to 1962 the beginning of the McNamara era and of America's long involvement in Vietnam The subsequent volumes will cover Army OR during the McNamara era its application in support of military operations in Vietnam and its significant contributions to the Army's post Vietnam recovery and reorganization ultimately leading to a victory after only 100 hours of combat in the first Gulf War in 1991 and the emergence of the U S Army as second to none in modern weaponry tactical prowess and strategic vision

A Memorandum for the President of the Royal Audiencia and Chancery Court of the City and Kingdom of Granada Francisco Núñez Muley, 2010-02-15 Conquered in 1492 and colonized by invading Castilians the city and kingdom of Granada faced radical changes imposed by its occupiers throughout the first half of the sixteenth century including the forced

conversion of its native Muslim population Written by Francisco N ez Muley one of many coerced Christian converts this extraordinary letter lodges a clear sighted impassioned protest against the unreasonable and strongly assimilationist laws that required all converted Muslims in Granada to dress speak eat marry celebrate festivals and be buried exactly as the Castilian settler population did Now available in its first English translation N ez Muley s account is an invaluable example of how Spain s former Muslims made active use of the written word to challenge and openly resist the progressively intolerant policies of the Spanish Crown Timely and resonant given current debates concerning Islam minorities and cultural and linguistic assimilation this edition provides scholars in a range of fields with a vivid and early example of resistance in the face of oppression
