1 HARDWARE SETUP

Turn on the G-CONNECT by pressing the Power Button. The Status and POWERD status indicator light will show the Status light will continue to flash for a few moments indicating that your device is powering on.

3 SETUP YOUR DEVICE

- 1 **Wireless Network (SSID) Name**
Just like connecting to the Internet through a wireless home router, the Wireless Network (SSID) name is used to identify your G-CONNECT. The default name is "G-CONNECT" but it is recommended that you enter a name that is more meaningful to you.
 - 2 **Admin Account**
The Admin is typically the owner of the G-CONNECT and can manage all of the content found on the device. This password is different from the Wi-Fi password because it allows access to both the private and public content on the device.
- Finishing the setup**
Once you've entered your information, click on the "Submit" button to complete setup. You can now begin using G-CONNECT by entering <http://www.g-technology.com> into your preferred web browser and logging in using either the Guest or Admin account credentials.

CONNECTING TO THE INTERNET

You can also use your G-CONNECT device as a Wi-Fi hotspot to connect the Internet. Just plug an Ethernet cable from your home router into the G-CONNECT device and you're in business to begin surfing the web.

4 WELCOME TO G-CONNECT

- A Available Capacity
- B Display and manage content by folder
- C Display content by type
- D Sort content by date created
- E Show Thumbnail or List view
- F Perform operations on selected items (Play/View/Share/Delete/Download/Download)

Now that the G-CONNECT has been successfully setup, you can add content in a variety of ways. The recommended way to add content to the device is by using the included USB 3.0 Cable. For alternate ways to add content, visit <http://www.g-technology.com/support>

Transferring files using the USB 3.0 Cable

Power off the G-CONNECT by pressing the power button found on the device until the LED's begin flashing. When the LED's turn off, it is safe to disconnect the power adapter and using the USB 3.0 Cable provided to you with the box contents. Plug the two identical ends of the 3.0 Cable into your personal computer and the device into your G-CONNECT.

Your G-CONNECT should now appear as a drive on the desktop if using a Mac and in "My Computer" if using Windows.

Open Finder on your Mac or Windows Explorer on PC and find the G-CONNECT icon. Drag and drop files from your personal computer into the default folder type on the G-CONNECT. It is recommended, but not required that you use either the Admin or Public folder.

Files added into the top level folders are private and only visible to users who log in using the Admin account. Files added under the Public folder are accessible by all users that log into the G-CONNECT using the Guest permission.

Once you have added your content to the device, you can safely remove the G-CONNECT from your Personal Computer and reconnect it to the power supply for Wi-Fi usage.
