**The Vacuum Cleaner** Carroll Gantz, 2012-09-26 House cleaning has been an innate human activity forever but only since the early 19th century have mechanical devices replaced the physical labor performed mostly by women Mechanical carpet sweepers were replaced by manual suction cleaners which in turn were replaced by electric vacuum cleaners in the early 20th century Innovative inventors who improved vacuum cleaners as electricity became commonly available made these advances possible Many early manufacturers failed but some such as Bissell Hoover Eureka and others became household names as they competed for global dominance with improved features performance and appearance This book describes the fascinating people who made this possible as well as the economic cultural and technological contexts of their times From obscure beginnings 200 years ago vacuum cleaners have become an integral part of modern household culture Telephone directory AT & T (Firm), 1962 **Lansing Telephone Directories** , 1978 *Belen* Baldwin G. Burr, 2013 In 1740 a group of Hispanic families seeking new cultivatable land received a grant of more than 200 000 acres from the governor of Spanish New Mexico In 1793 a church was built in the Belen Old Town Plaza under the direction of Franciscan priests An agricultural community was formed around several plazas and residents prospered through barter and subsistence farming In the 1850s and 1860s German immigrants joined Hispanic merchants to form a vibrant business community The Atchison Topeka Santa Fe Railroad arrived in Belen in the 1880s and the nearby Belen Cutoff in 1908 linked both north south and east west rail lines to give Belen the nickname of the Hub City Today more than 100 trains travel through the Belen rail yard daily The Right to Repair Aaron Perzanowski, 2022-02-08 In recent decades companies around the world have deployed an arsenal of tools including IP law hardware design software restrictions pricing strategies and marketing messages to prevent consumers from fixing the things they own While this strategy has enriched companies almost beyond measure it has taken billions of dollars out of the pockets of consumers and imposed massive environmental costs on the planet In *The Right to Repair* Aaron Perzanowski analyzes the history of repair to show how we've arrived at this moment when a battle over repair is being waged largely unnoticed in courtrooms legislatures and administrative agencies With deft lucid prose Perzanowski explains the opaque and complex legal landscape that surrounds the right to repair and shows readers how to fight back *Flint Telephone Directories* , 1989 **Investigation of Communism in New York City Distributive Trades** United States.
