1. **What is the purpose of the study?**
The study aims to investigate the relationship between the use of social media and the mental health of young adults.
2. **What is the research question?**
The research question is: "Does the use of social media lead to increased levels of anxiety and depression in young adults?"
3. **What is the hypothesis?**
The hypothesis is that the use of social media is positively correlated with the levels of anxiety and depression in young adults.
4. **What is the significance of the study?**
The study is significant because it provides insight into the potential negative effects of social media on mental health, which can inform public health interventions and policies.
5. **What are the limitations of the study?**
The study has several limitations, including a cross-sectional design that cannot establish causality, a self-reported measure of social media use, and a sample that may not be representative of the general population.
