

NCERT Solutions for Class 11 English Hornbill Chapter 3 Discovering Tut: The Saga Continues

Question 1.

Give reasons for the following :

- (i) King Tut's body has been subjected to repeated scrutiny.
- (ii) Howard Carter's investigation was resented.
- (iii) Carter had to chisel away the solidified resins to raise the king's remain.
- (iv) Tut's body was buried along with gilded treasures.
- (v) The boy king changed his name from Tutankhaten to Tutankhamun.

Answer:

(i) King Tut of Egypt was merely a teenager when he died. He belonged to a very powerful family that had ruled Egypt and its empire for centuries. He was the last heir of his family. King Tut's body has been subjected to repeated scrutiny to know more about his life and the manner in which he died. Howard Carter, a British archaeologist discovered Tut's tomb in 1922.

Since then the modern world has speculated about what happened to him. Even the possibility of his murder is not ruled out. The repeated scrutiny will offer new clues about his life and death. That is why his dead body was brought under CT scanner to probe medical mysteries about him.

(ii) Howard Carter, the British archaeologist had discovered Tut's tomb in 1922. Carter's investigation was resented because the mummy was in very bad condition due to what he did to it while investigating. This is what Zahi Hawass, Secretary-General of Egypt's Supreme Council of Antiquities, felt. To separate Tut from his adornments, Carter's men removed the mummy's head and severed nearly every major joint.

(iii) Howard Carter had discovered Tut's tomb in 1922 after years of futile searching. When he finally reached the mummy, he ran into trouble. The ritual resins had hardened, cementing Tut to the bottom of his solid gold coffin. As Carter wrote later, no amount of legitimate force could move the resins. He set the mummy outside in blazing sunshine that heated it to 149 degrees Fahrenheit. But it had no effect at all. That is why the consolidated material or the solidified resins had to be chiselled away to raise the king's remains.

(iv) Tut's body was buried along with gilded treasures : precious collars, inlaid necklaces and bracelets, rings, amulets, a ceremonial apron, sandals, sheaths for his fingers and toes, inner coffin and mask—all of pure gold. In Tut's time the royals were fabulously wealthy. They thought or hoped that they could take their riches with them. That is why Tut's body was buried along with gilded treasures.

Hornbill Class 11 Guide

EW Minium

Hornbill Class 11 Guide:

On Board 11 Illa Vij, *On Board* offers assistance and guidance to students preparing for the CBSE Examination. It gives tips on how the questions in each section should be attempted in the examination. SECTION A READING The passages acquaint students with a range of texts. SECTION B WRITING It offers formats and samples for each type of writing task in the CBSE syllabus and tips for developing writing skills. SECTION C GRAMMAR It supports the students with practice material based strictly on the examination pattern. SECTION D LITERATURE It offers a variety of questions from poetry, prose and drama. TEST PAPERS Some actual tasks from the CBSE Board Examination papers have been included. ANSWERS Value points have been given for the Reading and Literature sections to facilitate peer correction and self correction. WORD POWER Students are encouraged to use the dictionary and infer the meaning of words and phrases from the context. LISTENING SPEAKING In order to develop proficiency in the English language it is imperative that all the four skills of reading, writing, listening and speaking are honed.

Animal DK, 2017-09-12

View the animal kingdom up close as never before in this breathtaking title which has already sold over 1.5 million copies. Written by 70 specialists, it features stunning wildlife photography of more than 2000 of the world's most important wild mammals, birds, reptiles, amphibians and insects. With around two million species identified to date, animals are the dominant and most varied form of life on the planet. *Animal* presents a representative selection ranging from the giant baleen whale to fast moving predators such as sharks, big cats and birds of prey, as well as microscopic beetles barely 1mm long and other insects. It presents some of the latest species to be described: meet the cute but elusive olinguito from South America which was only identified in 2013, or the skywalker hoolock gibbon that was named after a Star Wars character in 2017. *Animal* also explains how the earth's biodiversity is in sharp decline and the conservation projects underway to safeguard precious species. For each one, it gives a locator map and statistics including its conservation status. For anyone who wants a reliable and enthralling reference in which you can find

the answers to everything from why zebras are striped or how the sunbear got its name Animal is your essential one stop guide
