Horos Dios Brill 2005:

Jason and the Argonauts through the Ages Jason Colavito, 2014-04-07 The story of Jason and the Argonauts is one of the most famous in Greek myth and its development from the oldest layers of Greek mythology down to the modern age encapsulates the dramatic changes in faith power and culture that Western civilization has seen over the past three millennia From the Bronze Age to the Classical Age from the medieval world to today the Jason story has been told and retold with new stories details and meanings This book explores the epic history of a colorful myth and probes the most ancient origins of the quest for the Golden Fleece a quest that takes us to the very dawn of Greek religion and its close relationship with Near Eastern peoples and cultures

Horos Dios Gerald Lalonde, 2021-11-29 Horos Dios draws on a wide variety of literary and archaeological evidence to argue that an Archaic horos inscription and other rock cuttings on the northeast slope of the Hill of the Nymphs in Athens are remnants of a shrine of Zeus Meilichios a popular god of purification worshipped widely in Athens Attica and the greater Greek world

Ancient Greek Housing Lisa C. Nevett, 2023-05-25 The temples and theatres of the ancient Greek world are widely known but there is less familiarity with the houses in which people lived In this book Lisa Nevett provides an accessible introduction to the varied forms of housing found across the Greek world between c 1000 and 200 BCE Many houses adopted a courtyard structure which she sets within a broader chronological geographical and socio economic context The book explores how housing shaped and was shaped by patterns of domestic life at Athens and in other urban communities It also points to a rapid change in the scale elaboration and layout of the largest houses This is associated with a shift away from expressing solidarity with peers in the local urban community towards advertising personal status and participation in a network of elite households which stretched across the Mediterranean

Instructors students and general readers will welcome this stimulating volume

In the Garden of the Gods Eva Anagnostou-Laoutides, 2016-07-07 Examining the evolution of kingship in the Ancient Near East from the time of the Sumerians to the rise of the Seleucids in Babylon this book argues that the Sumerian emphasis on the divine favour that the fertility goddess and the Sun god bestowed upon the king should be understood metaphorically from the start and that these metaphors survived in later historical periods through popular literature including the Epic of Gilgame and the Enuma Eli The author's research shows that from the earliest times Near Eastern kings and their scribes adapted these metaphors to promote royal legitimacy in accordance with legendary exempla that highlighted the role of the king as the establisher of order and civilization As another Gilgame and later as a pious servant of Marduk the king renewed divine favour for his subjects enabling them to share the Garden of the Gods Seleucus and Antiochus found these cultural ideas as they had evolved in the first millennium BCE extremely useful in their efforts to establish their dynasty at Babylon Far from playing down cultural differences the book considers the ideological agendas of ancient Near Eastern empires as having been shaped mainly by class rather than race minded elites

Horos Thea Potter, 2022-01-07 In Horos Thea Potter explores the complex relationship between

classical philosophy and the horos a stone that Athenians erected to mark the boundaries of their marketplace their gravestones their roads and their private property Potter weaves this history into a meditation on the ancient philosophical concept of horos the foundational project of determination and definition arguing that it is central to the development of classical philosophy and the marketplace Horos challenges many significant interpretations of ancient thought With nuance and insight Potter combines the works of Aristotle Plato Homer and archaic Greek inscriptions with the twentieth century continental philosophy of Heidegger Derrida and Walter Benjamin The result is a powerful study of the theme of boundaries in classical Athenian society as evidenced by boundary stones law and exchange ontology insurgency and occupation The innovative book will be of interest to scholars in the fields of ancient Greek social history philosophy and literature as well as to the general reader who is curious to know more about classical life and philosophy

Space, Place, and Landscape in Ancient Greek Literature and Culture Kate Gilhuly, Nancy Worman, 2014-09-22 This book brings together a collection of original essays that engage with cultural geography and landscape studies to produce new ways of understanding place space and landscape in Greek literature from the fifth and fourth centuries BCE The authors draw on an eclectic collection of contemporary approaches to bring the study of ancient Greek literature into dialogue with the burgeoning discussion of spatial theory in the humanities The essays in this volume treat a variety of textual spaces from the intimate to the expansive the bedroom ritual space the law courts theatrical space the poetics of the city and the landscape of war And yet all of the contributions are united by an interest in recuperating some of the many ways in which the ancient Greeks in the archaic and classical periods invested places with meaning and in how the representation of place links texts to social practices

Religious Convergence in the Ancient Mediterranean Sandra Blakely, Billie Jean Collins, 2019-12-15 This volume brings together scholars in religion archaeology philology and history to explore case studies and theoretical models of converging religions The twenty four essays offered in this volume which derive from Hittite Cilician Lydian Phoenician Greek and Roman cultural settings focus on encounters at the boundaries of cultures landscapes chronologies social class and status the imaginary and the materially operative Broad patterns ultimately emerge that reach across these boundaries and suggest the state of the question on the study of convergence and the potential fruitfulness for comparative and interdisciplinary studies as models continue to evolve

The Courts of Philip II and Alexander the Great Frances Pownall, Sulochana R. Asirvatham, Sabine Müller, 2022-01-19 Recent scholarship has recognized that Philip II and Alexander the Great adopted elements of their self fashioning and court ceremonial from previous empires in the Ancient Near East but it is generally assumed that the advent of the Macedonian court as a locus of politics and culture occurred only in the post Alexander landscape of the Hellenistic Successors This volume of ground breaking essays by leading scholars on Ancient Macedonia goes beyond existing research questions to assess the profound impact of Philip and Alexander on court culture throughout the ages The papers in this volume offer a thematic approach focusing upon key institutional cultural social

ideological and iconographical aspects of the reigns of Philip and Alexander The authors treat the Macedonian court not only as a historical reality but also as an object of fascination to contemporary Greeks that ultimately became a topos in later reflections on the lives and careers of Philip and Alexander This collection of papers provides a paradigm shifting recognition of the seminal roles of Philip and Alexander in the emergence of a new kind of Macedonian kingship and court culture that was spectacularly successful and transformative

The Hero Cults of Sparta Nicolette A. Pavlides, 2023-09-07 This book examines the hero cults of Sparta on the basis of the archaeological and literary sources Nicolette Pavlides explores the local idiosyncrasies of a pan Hellenic phenomenon which itself can help us understand the place and function of heroes in Greek religion Although it has long been noted that hero cult was especially popular in Sparta there is little known about the cults both in terms of material evidence and the historical context for their popularity The evidence from the cult of Helen and Menelaos at the Menelaion the worship of Agamemnon and Alexandra Cassandra the Dioskouroi and others who remain anonymous to us is viewed as a local phenomenon reflective of the developing communal and social consciousness of the polis What is more through an analysis of the typology of cults it is concluded that in Sparta the boundaries of the divine heroic mortal were fluid which allowed a great variation in the expression of cults The votive patterns topography and architectural evidence permit an analysis of the kinds of offerings to hero cults and an evaluation of the architecture that housed such cults Due to the material and spatial distribution of the votive deposits it is argued that Sparta had a large number of hero shrines scattered throughout the polis which attests to an enthusiastic and long lasting local votive practice at a popular level

Horos Dios (HOPOΣ : ΔΙΟΣ) Gerald V. Lalonde, 2006 Horos Dios draws on a wide variety of literary and archaeological evidence to argue that an Archaic horos inscription and other rock cuttings on the northeast slope of the Hill of the Nymphs in Athens are remnants of a shrine of Zeus Meilichios a popular god of purification worshipped widely in Athens Attica and the greater Greek world

Satire in the Middle Byzantine Period, 2020-12-15 This volume places the satirical works of the Middle Byzantine period in a wider political and socio cultural context exploring not only their various forms but also their functions and meanings The volume is divided into four parts The first part provides the backgrounds of the authors and texts discussed in the volume The second concerns the manifold functions and appearances of Byzantine satirical texts Part three offers detailed analyses of three largely unexplored texts the Charidemos the Philopatrios and the Anacharsis The last section moves from the individual texts to the larger picture of satirical modes in Middle Byzantium Contributors are Baukje van den Berg Floris Bernard Stavroula Constantinou Eric Cullhed Janek Kucharski Mark ta Kulh nkov Paul Magdalino Henry Maguire Przemys aw Marciniak Charis Messis Ingela Nilsson Emilie van Opstall Panagiotis Roilos and Nikos Zagklas See inside the book

Polis and Personification in Classical Athenian Art Amy C. Smith, 2011-06-22 In this study Dr Smith investigates the use of political personifications in the visual arts of Athens in the Classical period 480 323 BCE Whether on objects that served primarily private roles e g decorated vases or public roles e g

cult statues and document stelai these personifications represented aspects of the state of Athens its people government and events as well as the virtues e g Nemesis Peitho or Persuasion and Eirene or Peace that underpinned it Athenians used the same figural language to represent other places and their peoples This is the only study that uses personifications as a lens through which to view the intellectual and political climate of Athens in the Classical period **Gnomon** ,2006
