Mustang Boss 302 Donald Farr, 2011-08-29 Of the legendary names in the history of the Ford Mustang one stands apart Boss Originally created to homologate the new Boss 302 engine for SCCA Trans Am racing the Boss 302 Mustang was built in limited numbers for the street Designed by legend Larry Shinoda the Boss cars were easily distinguished from their less potent stable mates by their unique front and rear spoilers rear window slats and the omission of the standard Mustang's fake rear fender brake ducts Also standard was a shaker hood scoop and bold graphics Though Mustang performance faded to all time lows as the 1970s rolled on there was good news on the way The pairing of the venerable 302 Windsor engine with the new Fox body platform for the 1979 Mustang might not have seemed significant at the time but it was the first edition of what would become a performance institution in the late 20th century the 5 liter Mustang was an overwhelming force on the streets and tracks through the end of its production in 1995 With no small amount of fanfare Ford is paying homage to its performance past with the re introduction of the 5.0 liter powerplant in the Mustang GT for 2011 [The Edge of Yesterday](#)
