Noah is pretty happy at school he s in a friendly class he s got a best mate Jack and he s one of the youngest to be picked for the school football team Then a broken leg keeps him off school for several weeks and on his return there s been a mysterious change of atmosphere A new boy Basil has joined the class and everyone is fascinated by him The only person who seems to be immune to Basil s charms is class joke Bertie known as Pigface Try as he might Noah just can t slip back into his normal place it seems to have been usurped by Basil His only choice of partner in class at lunch in Games and at break is Pigface Forced to sample life as an outsider Noah has a choice make a desperate effort to get back into the inner circle or get to see life from Pigface s alternative viewpoint *The Secret Life of Decisions* Meena

Thuraisingham, 2017-03-02 Making decisions is a critical part of every executive s job However we know so little about the often subliminal processes that shape the decisions we make The Secret Life of Decisions exposes the unchallenged myths and distortions that impact our reasoning ability raising our awareness of the many traps we can fall into Meena

Thuraisingham and her collaborator Wolfgang Lehmacher have drawn from decades of work with leaders showing that even the most talented leaders and teams can end up making sub optimal decisions This is rarely because they had poor critical thinking faculties but rather because they did not pay enough attention to the often invisible traps hardwired into our thinking processes letting through only information that conforms with our current beliefs mental models and expectations This leaves many leaders and businesses exposed Rather than being the rational output of our reasoning abilities the authors show decision making to be a highly imprecise process As decision makers we come to the table armed with our own perspectives preferences filters heuristics and biases influenced by a broad range of social influences many operating subliminally The Secret Life of Decisions is an essential read for developing and seasoned executives who have to work through increasingly complex and high stakes decisions It treats choosing wisely and the thinking involved as a skill which as with many other skills can be improved with the guided practice and supporting tools provided here The journey however starts with awareness that comes from outing the secret forces that can sabotage the quality of our decisions *BTEC*
