Navigation by Judgment Dan Honig,2018 Foreign aid organizations collectively spend hundreds of billions of dollars annually with mixed results Part of the problem in these endeavors lies in their execution When should foreign aid organizations empower actors on the front lines of delivery to

guide aid interventions and when should distant headquarters lead In Navigation by Judgment Dan Honig argues that high quality implementation of foreign aid programs often requires contextual information that cannot be seen by those in distant headquarters Tight controls and a focus on reaching pre set measurable targets often prevent front line workers from using skill local knowledge and creativity to solve problems in ways that maximize the impact of foreign aid Drawing on a novel database of over 14 000 discrete development projects across nine aid agencies and eight paired case studies of development projects Honig concludes that aid agencies will often benefit from giving field agents the authority to use their own judgments to guide aid delivery This navigation by judgment is particularly valuable when environments are unpredictable and when accomplishing an aid program s goals is hard to accurately measure Highlighting a crucial obstacle for effective global aid Navigation by Judgment shows that the management of aid projects matters for aid effectiveness Leadership: Political-economic, Regional Business And Socio-community Contexts Tai Wei Lim,2020-03-20 Political leadership styles in East Asian states are shaped and influenced by a number of domestic factors These factors include the type of political system that an East Asian state adopted from their days of independence and decolonization There is a diverse array of political systems in the region ranging from Western style liberal democracies like Japan and South Korea to autocratic one party states like North Korea Most other East Asian countries adopt systems somewhere in between these two polar ends This volume begins with a macro political perspective of leadership It then looks at case studies of political leadership and the factors that influence the shape and outcome of leadership styles in the region The book also examines the concept of community leadership and its impact on community well being Several specific case studies are examined in depth While examining political leadership from a macro theoretical and empirical perspective the book also adopts historical anthropological perspectives to analyse case studies The case studies also examine policy formulation and implementation to look at the role of government in handling community level issues Finally the book focuses on economic leadership in international political economy and global business Resistance and Unity Tashi Gelek, Dorjee Damdul, Tashi Dhondup, Carole McGranahan,2019-10-04 This book is an important addition to the history of Tibetan opposition to the Chinese takeover of their country Shangri Lhagyal was one of many Tibetans who refused to cooperate with the Chinese as they tried to substantiate and legitimate their claim to sovereignty over Tibet He like many others was forced into open opposition as the only honorable option Although he modestly resisted a leadership role in the Resistance his competence and reputation for integrity led others to choose him as one of the most important Resistance leaders Although he did not leave an extensive written record several members of his family have admirably filled in the historical record of the events in which he played such an important role As the editors of this account have emphasized it is important for Tibetans as well as the outside world to know the true history of the Tibetan resistance to China s forcible imposition of its rule over the formerly independent country Warren W Smith author of Tibetan Nation A History of Tibetan Nationalism and Sino Tibetan Relations

This book is inspired by H H the Dalai Lama's idea that each Tibetan refugee especially the freedom fighters should document their personal experiences to inspire and to keep coming generations of Tibetan well informed about the true history of Tibet. The book deals brilliantly with many minute and significant details of modern Tibetan history lived by ordinary citizens which would have otherwise gone unrecorded and unsung. It is by all means a must read for the new generation of Tibetans as well as their non Tibetan supporters. Vijay Kranti author of Dalai Lama The Soldier of Peace Resistance and Unity is more than Makchi Shangri Lhagyal's personal story. It is a condensed modern history of Tibet from a Tibetan perspective. Following Shangri Lhagyal's life readers go back to the crucial years of the 1950s 60s when Tibet a country that was never before ruled by any foreign power was made part of the People's Republic of China. Tibetan freedom fighters fought heroically against social transformation programs forcefully imposed by the Chinese Communist Party. Many fought to the last drop of blood. For Chinese readers this is a must read book. Jianglin Li author of Tibet in Agony Lhasa 1959
