International Navtex Manual:

NAVTEX Manual International Maritime Organization, 2012 NAVTEX is an international automated direct printing service for promulgation of navigational and meteorological warnings and other urgent information to ships It is one of the two principle methods used for broadcasting maritime safety information in accordance with the provisions of the International Convention for the Safety of Life at Sea 1974 as amended It has been developed to provide a low cost simple and automated means of receiving maritime safety information and Search and Rescue alerts on board ships at sea and in coastal waters The information transmitted may be relevant to all sizes and types of vessel and the selective message rejection feature ensures that every mariner can receive safety information broadcasts which are relevant to their voyage This manual is intended primarily for use by maritime Administrations and others concerned with the preparation and broadcasting of maritime safety information It will also be of interest to seafarers shipowners and others who need to receive such information in order to safely go about their business at sea This fifth edition includes a number of amendments which reflect the recent updates to the Joint IMO IHO WMO Manual on Maritime Safety Information The definitions have been extensively expanded along with the technical explanations of the B characters which make up the alphanumeric code of each NAVTEX message New sections include examples of navigational warnings and meteorological messages responsibilities of a NAVTEX Coordinator and mutual interference between NAVTEX stations **Navtex Manual** International Maritime Organization Staff, 1988

NAVTEX Manual, 1988 *Navigation Control Manual* A G Bole, C E Nicholls, W O Dineley, 2013-11-05 Invaluable to participants of navigation control courses candidates for Class 2 and Class 1 master mariner and all practising navigating officers **Maritime Claims and Boundary Delimitation** Nicholas A. Ioannides, 2020-09-27 This book delves into the major developments triggered by the hydrocarbon discoveries in the Eastern Mediterranean over the last twenty years focusing on maritime boundary delimitation Examining the impact that the hydrocarbon discoveries have had on the application of the law of the sea rules by the East Med states the book looks at the new trends concerning the implementation of the law of the sea in the region The book analyses regional state practice in terms of maritime delimitation namely the conclusion of bilateral agreements based on the law of the sea rules both conventional and customary reflecting the East Med states willingness to cooperate in order to reap the benefits of the energy windfall Alongside this analysis an outline of the hydrocarbon discoveries and the pertinent maritime activities is given as well as further coverage of the overlapping maritime claims and disputes between Greece Cyprus and Turkey on one side and Lebanon and Israel on the other Moreover the book examines the validity of maritime claims made by or through non state entities in the region namely the State of Palestine the UK Sovereign Base Areas and the so called Turkish Republic of Northern Cyprus and their potential impact on the delimitation agreements already in place The book argues that the East Med paradigm concerning the successful application of the pertinent norms in maritime delimitation proves that international law is resilient and capable of

providing solutions in other turbulent regions around the globe This book will be of interest and importance to academics and students of international law professionals in the oil and shipping industries legal professionals and government agencies
