Code of Federal Regulations, Title 14, Aeronautics and Space ,2011-04-27

The ISM Code: A Practical Guide to the Legal and Insurance Implications Phil Anderson,2015-06-16 The ISM Code has been mandatory for almost every commercial vessel

in the world for more than a decade and nearly two decades for high risk vessels yet there is very little case law in this area. Consequently there remains a great deal of confusion about the potential legal and insurance implications of the Code. This third edition represents a major re write and addresses significant amendments that were made to the ISM Code on 1st July 2010 and 1st January 2015. This book provides practitioners with a practical overview of and much needed guidance on the potential implications of failing to implement the requirements of the Code. It will be hugely valuable to DPAs managers of ship operating companies, ship masters, maritime lawyers and insurance claims staff.

The Professional Business Email Etiquette Handbook & Guide Gerard Assey, 2020-09-05. There is little doubt that online technologies have transformed the way business operates in recent years. And in this age of such advanced technology, email is still the most preferred and often most efficient form of communication, but yet regrettably many organizations treat this very important form of business communication casually and lightly. With the average professional sending 40 emails per day and receiving 121, there is definitely a chance to move fast in email communication, thus overlooking fundamental email etiquette rules. This means that you have 40 opportunities to market yourself and your business in those individual emails you send every single day. A recent study found that the average adult spends approximately 5 hours a day checking email, 3 hours checking work email and 2 hours checking personal email. This time is spent reading and composing hundreds of messages at a very fast pace, obviously leaving a lot of room for error. These errors can lead to missed opportunities or appearing totally unprofessional. You would have experienced many replying to emails late or not at all, or even sending replies that do not actually answer the questions being asked. This can cause a potentially damaging effect on the image of the organization, resulting finally in a loss of business. There are basically 3 key entrances to any business: 1. The front door, face to face walk in customers or customers solicited by your sales personnel; 2. The telephone; and 3. The net. And the chances are that if either of these are NOT handled properly, you have lost your customer forever. Think of this for a moment. If most of the business coming in is through the net and if your organization is able to deal professionally with email, then this will most certainly result in your organization having that all important competitive edge. On the other hand, if not handled the right way, then in the very first instance, chances are that you have lost a customer and it could even be forever. And remember, word of mouth travels fast today thanks to the social media platforms. So this is where the importance of educating your employees can help, thus protecting your company from awkward liability issues as well. By

having employees use appropriate business like language and etiquette in all electronic communications employers can limit their liability risks and improve the overall effectiveness of the organization thus resulting in greater returns with a professional image and branding Therefore when it comes to any material or correspondence being sent out from your organization it is of vital importance to convey the right message in the right way to ensure that this creates the right impression that you are a credible professional enterprise and one that will be easy and a pleasure to do business with And remember you only have that one chance to make that first impression which will be invaluable to building trust and confidence So like any tool or skill it is important therefore that organizations take the time to provide the right support to ensure and enable staff to effectively integrate the right online tools and skills into their daily work routine and gain maximum benefit It is also vital that organizations develop internal policies to guide employees on the correct use of such online communications to cover issues such as personal use privacy monitoring downloading of content access by third parties and illegal use of the internet to avoid any embarrassment or awkward liability issues that can otherwise arise This little book The Professional Business Email Etiquette Handbook Guide comes to you at such a crucial time as this when the world is going through a pandemic and one needs to be all the more sensitive especially with the right etiquette So I believe that this will immensely help in equipping you and your team with the essential skills and techniques necessary for managing and structuring emails and writing professionally So here s to how to Write Right the Email Way

Professional Presentation Skills (A Handbook & Quick Reference Guide) GERARD ASSEY, The best of skills and competency levels will not help if one is unable to present or communicate effectively In recent studies conducted in organizations it was established that more than 60% of an executive s time was spent in communicating and presenting ideas and in the case of top level executives it even exceeded 80% of the daily working time One may have great knowledge of their field excellent skills and enormous potential but the world will know about these only if one can properly present themselves along with the qualities they have The most successful employees are the ones who can communicate well People with effective presentation skills know how to speak with confidence conveying information in a clear crisp and concise manner Business leaders are often expected to present new ideas new developments new innovations company policies and changes to staff clients partners or even the public Lots of money time planning efforts and pressure can go into these presentations Therefore organizations are constantly on the lookout for such ones who have strong presentation skills to take the lead on these kinds of projects People who possess these skills will be more likely to get noticed by their superiors and climb their way up the corporate ladder faster So whether you are a high level manager or just an assistant developing your presentation skills is one sure way to climb up the corporate ladder Being a good presenter contributes a lot to individual growth especially for those in the field of sales and marketing This is because your presentation skills can help play a vital role in how well you are able to convince your audience Further being a good communicator gives you a chance to connect with

people thus enabling you to easily convey your ideas in the meeting room And most times it s your presentation that can actually help bag projects For businessmen and entrepreneurs a powerful presentation can mean funding for their startup or convincing stakeholders For employees and freelancers a great presentation means retaining a client or securing a new project But many people think of presentation skills as only the delivery part However creating a great presentation requires much more than just public speaking skills Being able to create and deliver a great presentation is something that most people need to know as it s an important way to express ideas and persuade audiences One example is the understanding of your audience which is an important trait of a good presenter You need to be able to research properly structure your ideas write the presentation in an orderly flow add visuals and design elements and then only you get to present it Presentation skills are therefore most vital for individual growth as well as the success of an organization on the whole and this book Professional Presentation Skills A Handbook Quick Reference Guide will help you do just that covering all that you would need to prepare and deliver an impactful presentation You will find that the book has been laid out in a very unique manner under 20 headings each beginning with a P that will help equip you or your team with the best of skills to mark your presence and help you move forward and upward soaring high
