topic of the books explains the following matters Faith and Deeds In the year 2014 to 2019 there are sixteen signs in the sky related to Jesus second coming as mentioned in Acts 2 20 People s response to these celestial signs can be divided into three groups the group of unbelievers the group of people who solely believe and the group who believe and act upon it 5 Foolish Virgins and 5 Wise Ones This parable deals with the situation at the end of time the time we live today Although the ten virgins are children of God only five entered the Kingdom of Heaven therefore we need to study this parable more seriously while looking at which type of virgin we are today God s Promise to Provide The Bible recorded many examples of God provided for His people God also promise to provide for His children at present time as can be found among others in Matthew 6 25 34 Lord Jesus explained that God requires us to seek first his kingdom and his righteousness The above requirements are explained in a simple but complete and in depth manner in this book Heaviest Temptations We may assume that the temptation Job experienced was very heavy even the toughest one Actually the heaviest temptation is the unseen one that had happened to Adam and Eve and had made them fall while the Lord Jesus successfully dealt with it In the context of the end times similar temptations Jesus experienced could afflict us and perhaps are afflicting us today A People Prepared for the Lord Deuteronomy 6 6 9 clearly says that God commanded the Israelites to teach their children spirituality so that they become His people God really wants our entire family to become God s children that s why Moses negligence in educating and preparing his children had a fatal impact against Moses he was almost killed by the Lord To Do the Will of the Father The will of the Father is stated among others in John 6 40 And this is the will of Him who sent Me that everyone who sees the Son and believes in Him may have everlasting life and I will raise him up at the last day Are there people who have accepted the Lord Jesus yet will not enter into heaven Yes there are as described in the parable of The Sower which depicts four types of Christians where only one type will survive Loving God The Lord Jesus explains in John 14 21 Whoever has my commands and keeps them is the one who loves me The one who loves me will be loved by my Father and I too will love them and show myself to them Since such a great reward would be received by those who love God therefore in Mark 12 30 the Lord Jesus said Love the Lord your God with all your heart and with all your soul and with all your mind and with all your strength Give Glory unto the Lord The Book of Psalms 96 8 9 describes how we should give glory unto the name of the Lord To bring an offering and come into His courts To worship the Lord in the beauty of holiness To fear before Him

International Partnerships for Strengthening Health Care Workforce Capacity: Models of Collaborative Education Jeanne Mahoney Leffers, Jennifer Gail Audette, Kevin S. Hardwick, William Van Cleve, 2018-07-31 A critical problem in resource scarce countries across the globe is the shortage of appropriately trained health care providers According to the World Health Organization the current global health workforce shortage of 7.2 million providers is estimated to increase to 12.9 million by 2035 This disproportionately affects resource scarce countries denying basic health care to millions and limiting access to life saving treatments Due to limited resources in these countries not enough health professionals receive training

few have the opportunity for continuing education and the ability to develop or implement educational programs and curricula is constrained. Additionally, many existing providers choose to emigrate in pursuit of professional advancement opportunities contributing to the overall shortage of qualified health care providers in these environments. Efforts to strengthen health workforce capacity not only increase access, safety, and availability of care but are critical to building resilient health systems capable of caring for the world's neediest populations. This requires not only cultivating new health care providers but also providing ongoing professional development to retain and support current providers, advancing the level of practice in accordance with current clinical science, cultivating educators, and enhancing training curricula. It is critical also to contribute to the limited body of research documenting the effectiveness and impact of various models of collaborative education and partnership to improve health worker training and retention. This Research Topic examines strategies for building health workforce capacity through the prism of educational partnerships, offering significant examples of effective models of international collaborative education as well as insight and guidance on the structure and operation of successful global partnerships. Collectively, the 31 articles accepted and included in this eBook represent a diversity of health professions and geographies across academic, non-governmental organizations, and other global partnership forms. The published manuscripts highlight various elements of partnerships with several consistent themes emerging: capacity building, local empowerment, mutual trust and respect, long-term commitment, equity, collaboration, and the importance of integrating theory and practice for a balance of academic and clinical development. The manuscripts provide examples of partnership and educational programs that are in the formative early stages of implementation and others which have been sustained long-term, some for decades. The following eBook is divided into two parts, with each part broken down into sections. Part I of the eBook includes 18 manuscripts that showcase long-term educational programs that strongly exemplify multiple foundational aspects of international partnerships in education, including mutual collaboration and project management, empowerment of host partners to lead and sustain programs, and capacity building. While individual manuscripts included in Part I look broadly at multiple aspects of successful international partnerships in education, Part II manuscripts focus intently on one or two elements. Part II includes 13 articles that highlight partnership through short rather than long-term educational initiatives as well as program development and broad academic partnerships. This Research Topic was sponsored by Health Volunteers Overseas, a United States-based non-profit that collaborates with over eighty international universities and health institutions to send volunteer health professionals to low-resource countries to provide continuing education, train-the-trainer courses, professional support, and consultation on academic program and curricula development.

Figurativity across Domains, Modalities and Research Practices Alexandra Bagasheva, Nelly Tincheva, 2022-01-05

The human ability to think non-literally has attracted the interest of various scholars for thousands of years. Over the centuries, they have defined and studied an extensive variety of tropes such as metaphor, metonymy, synecdoche, allegory, and irony in terms of their communicative

effectiveness and stylistic aesthetics and basically interpreted these simply as figurative linguistic expressions and mere flourishes adding flavour to underlying non figurative content Today figurativity is understood as constitutive of various processes of human comprehension of the world human communicative interactions and everyday human functioning This volume constitutes a representative selection of studies that provide novel answers to the open questions of how non literal thought and non literal expression in various media and discourses co exist The book focuses on figurative cognitive operations enabling non literal thought language and other semiotic expressions The unique set of viewpoints and authors contributions upholds the cognitive approach to figurativity it positions figurativity in various discursive environments compares and contrasts figurativity in various languages and cultures and traces the multimodal interplay of figurativity
