Literacy Resource Bank Developed to Help Nation's Urban School Districts Implement New Academic Standards

WASHINGTON, Aug. 16 – The Council of the Great City Schools and Student Achievement Partners (SAP) today announced a new online resource aimed at helping school districts nationwide implement the Common Core State Standards in English language arts and literacy, one of two major components of the new academic standards adopted by 46 states and the District of Columbia.

The resource bank includes a compilation of questions and tasks aligned to the new common core standards in English language arts (ELA) and literacy that can be used to help school districts transition to the new standards.

In an initiative called the Basal Alignment Project (BAP), literacy educators from states across the country came together to write the standards-aligned materials and questions that teachers and administrators can use in conjunction with their current curriculum while new instructional products are being developed.
