

"With a suitable reform of the global financial architecture, low-income countries would boost their domestic investment rates by around 20 % of GDP and lower-middle-income countries by around 10 % of GDP. (...)

The poorer countries would finally see a viable future."

Jeffrey Sachs Un Report:

The United Nations in the Twenty-first Century Marcus F. Franda, 2006 The United Nations is confronting a severe crisis at the beginning of the twenty first century Its capabilities have been called into question amid a rash of recent scandals and charges of leadership mismanagement bureaucratic ineptitude and corrupt activities Current world opinion seems to express elevated concern about the organization s ability to deal with the complexity of international relations in the new millennium Despite six decades of survival its membership still appears unable to maintain a consistent focus or set of practices to pursue common goals The United Nations in the Twenty First Century analyzes the significance of the many forces and events affecting the UN s efforts at reform It provides a detailed examination of these processes for all of the major UN organs and agencies including chapters on the Secretaries General the Secretariat the General Assembly the Security Council and ECOSOC The chapters on the Secretaries General are the only detailed discussion that compares contrasts and evaluates the tenures of the seven people who have headed the UN The book s concluding chapters focus on Kofi Annan s reform agenda as it relates to previous UN reform experiences and assess the future impact of recent UN related scandals and charges of mismanagement

Modernizing the United Nations System John E. Trent, 2007-06-20 This book contends that civil society must mobilize its capacities to bring a new will to national and international politics and oblige governments to act It starts by demonstrating the need for institutional change at the UN and then shows how both in the past and the present leading individuals and nongovernmental organizations using their knowledge base and their organizational networks have lead the fight for international organizations After a summary of major UN reform proposals over the years the book concludes by identifying leading global reformers and elaborating a detailed plan for a global reform movement to spearhead the modernization of the UN system

Malone, 2016-03-01 *Law and Practice of the United Nations Documents and Commentary* combines primary materials with expert commentary demonstrating the interaction between law and practice in the UN organization as well as the possibilities and limitations of multilateral institutions in general Each chapter begins with a short introductory essay describing how the documents that ensue illustrate a set of legal institutional and political issues relevant to the practice of diplomacy and the development of public international law through the United Nations Each chapter also includes questions to guide discussion of the primary materials and a brief bibliography to facilitate further research on the subject This second edition addresses the most challenging issues confronting the United Nations and the global community today from terrorism to climate change from poverty to nuclear proliferation New features include hypothetical fact scenarios to test the understanding of concepts in each chapter This edition contains expanded author commentary while maintaining the focus on primary materials Such materials enable a realistic presentation of the work of international diplomacy the negotiation interpretation and application of such texts are an important part of what actually takes place at

Reforming the United Nations [electronic resource] Joachim Müller,2006 The United Nations is in need of reform There has always been widespread agreement that this is the case indeed throughout the 60 year history of the Organization Differences over the best cure reflect the political confrontation between its 191 member states The institution has been criticized to lack legitimacy to need accountability and to be inefficient with a bloated bureaucracy Recently allegations of mismanagement and corruption in the Oil for Food Program have led to a crisis of confidence The public debate followed reform initiatives for enlarging the Security Council achieving the Millennium Development Goals and establishing new collective mechanisms to protect human rights counter terrorism and respond to crimes against humanity Strengthening oversight governance and management practices aimed at introducing fundamental institutional changes The publication describes the reform process leading to the United Nations Summit in September 2005 The achievements remain disappointing with the failure to approve a grand bargain A number of recommendations are put

forward to facilitate the reform process in the United Nations realising however that this will remain cumbersome and a lengthy step by step effort A Dialogue of the Deaf Adekeye Adebajo, Helen Scanlon, 2006 As part of the ongoing effort to create a United Nations that is representative of its members this collection of essays attempts to present the African perspective clearly and persuasively This book is a valuable contribution to African efforts to engage the United Nations to achieve goals including debt relief and a more equitable world and to strengthen the understanding of this critical topic world wide **Cathonomics** Anthony M. Upreti, 2023-12-11 The drastic impact of the COVID 19 pandemic highlighted many of society s systemic inequalities In this timely and prescient book Taina Pihlajarinne Jukka Tapio M h nen and Pratyush Nath Upreti explore the importance of intellectual property rights IPRs post pandemic and argue for a pressing revision of the current IPR system to build a more globally sustainable and just regime Development Discourse and Global History Aram Ziai, 2015-08-27 The manner in which people have been talking and writing about development and the rules according to which they have done so have evolved over time Development Discourse and Global History uses the archaeological and genealogical methods of Michel Foucault to trace the origins of development discourse back to late colonialism and notes the significant discontinuities that led to the establishment of a new discourse and its accompanying industry This book goes on to describe the contestations appropriations and transformations of the concept It shows how some of the trends in development discourse since the crisis of the 1980s the emphasis on participation and ownership sustainable development and free markets are incompatible with the original rules and thus lead to serious contradictions The Eurocentric authoritarian and depoliticizing elements in development discourse are uncovered whilst still recognizing its progressive

Getting Better

Charles Kenny, 2012-12-04 As the income gap between developed and developing nations grows so grows the cacophony of voices claiming that the quest to find a simple recipe for economic growth has failed Getting Better in sharp contrast reports the good news about global progress Economist Charles Kenny argues against development naysayers by pointing to the evidence of widespread improvements in health education peace liberty and even happiness Kenny shows how the spread of cheap technologies such as vaccines and bed nets and ideas such as political rights has transformed the world He also shows that by understanding this transformation we can make the world an even better place to live That's not to say that life is grand for everyone or that we don't have a long way to go But improvements have spread far and according to Kenny they can spread even further

Roy S.K. Lee, 2006 Brings together contributions analyzing some pressing issues in the world and suggests ways and methods to manage these problems This book covers topics such as the decision making in the UN Security Council the position of the United States vis-à-vis the United Nations human rights and economic and social development and others

The Un Sustainable Development Goals

Ilias Bantekas, Francesco Seatzu, Katerina Akestoridi, 2023 In September 2015 the United Nations adopted the 17 Sustainable Development Goals (SDGs) This historic document constituted a universal plan for action for people planet and prosperity The Sustainable Development Goals serves as an expert compendium the most authoritative ready reference tool for anyone interested in the SDGs

Genocide, Ethnonationalism, and the United Nations Hannibal Travis, 2013-01-17 Genocide Ethnonationalism and the United Nations examines a series of related crises in human civilization growing out of conflicts between powerful states or empires and indigenous or stateless peoples This is the first book to attempt to explore the causes of genocide and other mass killing by a detailed exploration of UN archives covering the period spanning from 1945 through 2011 Hannibal Travis argues that large states and empires disproportionately committed or facilitated genocide and other mass killings between 1945 and 2011 His research incorporates data concerning factors linked to the scale of mass killing and recent findings in human rights political science and legal theory Turning to potential solutions he argues that the concept of genocide imagines a future system of global governance under which the nation state itself is made subject to law The United Nations however has deflected the possibility of such a cosmopolitical law It selectively condemns genocide and has established an institutional structure that denies most peoples subjected to genocide of a realistic possibility of global justice lacks a robust

international criminal tribunal or UN army and even encourages security cooperation among states that have proven to be destructive of peoples in the past Questions raised include What have been the causes of mass killing during the period since the United Nations Charter entered into force in 1945 How does mass killing spread across international borders and what is the role of resource wealth the arms trade and external interference in this process Have the United Nations or the International Criminal Court faced up to the problem of genocide and other forms of mass killing as is their mandate
