Beyond Exceptionalism Rebekka Mallinckrodt, Josef Köstlbauer, Sarah Lentz, 2021-08-23 While the economic involvement of early modern Germany in slavery and the slave trade is increasingly receiving attention the direct participation of Germans in human trafficking remains a blind spot in historiography This edited volume focuses on practices of enslavement taking place within German territories in the early modern period as well as on the people of African Asian and Native American descent caught up in them [Cassell's New German Dictionary](#) Elizabeth Weir, 1892 **Private Life and Privacy in Nazi Germany** Elizabeth Harvey, Johannes Hürter, Maiken Umbach, Andreas Wirsching, 2019-07-18 Highlights the surprising ways in which the Nazi regime permitted or even fostered aspirations of privacy [The Routledge Handbook of Smart Technologies](#) Heinz D. Zilian, 2022-02-27 This Handbook provides a thorough discussion of the most recent wave of technological and organisational innovations frequently called smart and based on the digitisation of information The acronym stands for Self Monitoring Analysis and Reporting Technology This new wave is one in a row of waves that have shaken up and transformed the economy society and culture since the first Industrial Revolution and have left a huge impact on how we live think communicate and work they have deeply affected the socioeconomic metabolism from within and humankind's footprint on our planet The Handbook analyses the origins of the current wave its roots in earlier ones and its path dependent nature its current forms and actual manifestations its multifarious impact on economy and society and it puts forward some guesstimates regarding the probable directions of its further development In short the Handbook studies the past the present and the future of smart technologies and digitalisation This cutting edge reference will appeal to a broad audience including but not limited to researchers from various disciplines with a focus on technological innovation and their impact on the socioeconomic system students across different fields but especially from economics social sciences and law studying questions related to radical technological change and its consequences as well as professionals around the globe interested in the debate of smart technologies and socioeconomic transformation from a multi and interdisciplinary perspective **Citizens into Dishonored Felons** Timon de Groot, 2023-04-14 Over the course of its history the German Empire increasingly withheld basic rights such as joining the army holding public office and even voting as a form of legal punishment Dishonored offenders were often stigmatized in both formal and informal ways as their convictions shaped how they were treated in prisons their position in the labour market and their access to rehabilitative resources With a focus on Imperial Germany's criminal policies and their afterlives in the Weimar era *Citizens into Dishonored Felons* demonstrates how criminal punishment was never solely a disciplinary measure but that it reflected a national moral compass that authorities used to dictate the rights to citizenship honour and trust **Moving Forward, Looking Back** Malte Hagener, 2007 This book the first full critical overview of the film avant garde ushers in a new approach and in the process creates its own subject While many books have studied particular aspects

of the European film avant garde of the 1920s and 1930s *Moving Forward Looking Back* provides a much needed summary of the theory and practice of the movement while also emphasizing aspects of the period that have been overlooked Arguing that a European perspective is the only way to understand the transnational movement the book also pioneers a new approach to the alternative cinema network that sustained the avant garde paying particular attention to the emergence of film culture as visible in screening clubs film festivals and archives It will be essential to anyone interested in the influential movement and the film culture it created **Under Fire: Women and World War II** Eveline Buchheim,Ralf Futselaar,2014

Since the 1970s when the dominance of military histories of the World Wars ended and social historical histories of conflict rose to prominence women have come to play an increasingly important role in mainstream stories about the Second World War Although this is undeniably a valuable development the perspectives on women that arose have in many respects remained limiting although in new ways Women have been portrayed as carers as victims notably of sexual violence but rarely as agents of their own fate This volume focuses on this last group In spite of the undeniable suffering and victimization that befell so many women during the war for others the war also opened opportunities and awakened ambitions The articles in this volume which cover both Europe and Asia bring together some of the women who took initiatives of which they sometimes suffered the dire consequences sometimes enjoyed the fruits **The German Länder** Werner

Moving Words Andrew Brandel, 2023-07-26 In the decades since the fall of the Berlin Wall Berlin has re-emerged as a global city in large part thanks to its reputation as a literary city a place where artists from around the world gather and can make a life Moving Words foregrounds the many contexts in which life in the city of Berlin is made literary from old neighbourhood bookshops to new reading circles NGOs working to secure asylum for writers living in exile to specialized workshops for young migrant poets Highlighting the differences tensions and contradictions of these scenes this book reveals how literature can be both a site of domination and a resource for resisting and transforming those conditions By attending to the everyday lives of writers readers booksellers and translators it offers a crucial new vantage point on the politics of difference in contemporary Europe at a moment marked by historical violence resurgent nationalism and the fraught politics of migration Rooted in ethnographic fieldwork rich historical archives and literary analysis Moving Words examines the different claims people make on and for literature as it carries them through the city on irregular and intersecting paths Along the way Brandel offers a new approach to the ethnography of literature that aims to think anthropologically about crossings in time and in space where literature provides a footing in a world constituted by a multiplicity of real possibilities

German Literature, History and the Nation Christian Emden, David R. Midgley, 2004

This is the second of three volumes based on papers given at the Fragile Tradition conference in Cambridge 2002. Together they provide a conspectus of current research on the cultural, historical and literary imagination of the German speaking world across the whole of the modern period. This volume highlights the connections between cultural identity and the sense of nationhood which are to be found in literary writing, the history of ideas and the interaction between European cultures from the late Middle Ages to the present day. It focuses particularly on the way myths of cultural identity are passed on and transformed historically, on the fashioning of various models of modern German identity with reference to the cultures of Greece, France, England and Renaissance Italy, on the reflection of 19th century nationalism in literary writing and ideas about language and on the ways in which cultural values have asserted themselves in relation to moments of catastrophe and abrupt political change in the 1920s, the 1940s and the 1990s.
