Getting to the Common Core Sharon L. Spencer, Sandra Vavra, 2015-01-01 The Common Core Standards have recently been adopted in most states across the nation and teachers are in the process of getting to the core of these standards Teaching to standards is not a new concept teachers have adapted to new standards every few years for quite some time And teachers are adaptable as can be seen in this book We are writing this book to demonstrate how teachers use research based strategies to meet Common Core Standards while still focusing on students Our goal is to help teachers visualize students in action as other teachers describe the implementation of research based strategies in their own classrooms show student work samples and provide reflections of student success in achieving the standards Many Common Core Standards books focus on the standards but our approach focuses on strategies that engage the students in the classroom showing how different teachers at varying grade levels have used the strategies to meet the standards With this focus we believe that teachers gain a new and positive perspective on approaching the new standards and see the flexibility of strategies for meeting standards across subject areas We have examined research on the strategies with the purpose of giving teachers a brief description of why these strategies work before giving actual examples from classrooms We also work closely with teachers in the public schools and have our finger on the pulse of what is happening in the public schools one of the current stressors being unpacking the Common Core Standards This book actually focuses on practice We begin by laying out a rationale in our first chapter The Core Values of

Education Then each chapter focuses on a strategy including 1 a brief description about the research supporting each strategy and 2 several examples from different grade levels which include a description of how the strategy was used student work samples and a reflection on the use of the strategy The research descriptions are fairly short because while we believe professional educators aka teachers in this case should know the research that supports practice we know they are not typically interested in long diatribes about the research

Talk about Books! Liz Knowles,Martha Smith,2003-07-30 Book clubs literature circles and reading groups are great ways to promote literacy and books to young readers This new guide provides everything you need to run a dynamic no fuss book discussion group with elementary and middle school students Featuring 15 titles of diverse genres it offers discussion topics and activity ideas for some of the best new reads for kids Brought to you by the authors of the highly acclaimed Reading Rules Motivating Teens to Read this guide is an outstanding resource for starting and running a stellar literary discussion group whether it s in a school public library or community center Grades 4 8

Reading Raps Rita Soltan,2005-12-30 Book clubs are sprouting up all over and so are book club guides but not all book club guides are equal Many focus on a specific type of book club or they take a generic approach of one size fits all and most do not take into account the special needs of librarians and educators working with young readers This guide has it all and it will help you ensure that your book club meetings are both fun and educational Focusing on children in grades 3 8 and their families the book offers 100 ready made book club instructions for popular children s and YA titles from newer releases such as Theresa Nelson s Ruby Electric and Blue Balliett s Chasing Vermeer to perennial favorites and award winning classics such as Johanna Hurwitz s Much Ado about Aldo and Gary Soto s Baseball in April and Other Stories Along with thought provoking discussion questions you ll find all the background information you need to conduct lively book discussions with a variety of readers plot summary themes and characters description genre reading level author and award information related reads and more The guide describes four types of family oriented book clubs family mother daughter father son and readers rap as well as a book club for kids only The author provides practical instructions for making each type of book club successful For each title she provides a plot summary characterization sketches questions to use for provocative discussion and follow up bibliographies on similar reads Notes on genres themes and reading levels are also provided The selected titles reflect some of the best most current and most popular children s literature In addition a broad scope of genres and multicultural titles are included Perfect for public library programs and after school book clubs this is a one stop resource with practical ready made plans that can easily be adapted to multiple environments Grades 3 8
