The Holocaust/Genocide Template in Eastern Europe Ljiljana Radonić, 2020-05-21 The Holocaust Genocide Template in Eastern Europe discusses the memory wars in the course of the post Communist re narration of history since 1989 and the current authoritarian backlash The book focuses specifically on how mnemonic warriors employ the Holocaust template and the concept of genocide in tendentious ways to justify radical policies and externalize the culpability for their international isolation and worsening social and economic circumstances domestically The chapters analyze three dimensions 1 the competing narratives of the universalization of the Holocaust as the negative icon of our era on the one hand and the double genocide paradigm on the other which focuses on our own national suffering under allegedly equally evil Nazism and Communism 2 the juxtaposition of post Communist Eastern Europe and Russia reflected primarily in the struggle of the Baltic states and Ukraine to challenge Russian propaganda a struggle that runs the risk of employing similarly distorting and propagandistic tropes and 3 the post Yugoslav rhetoric portraying one's own group as the new Jews and one's opponents in the wars of the 1990s as akin to Nazis Surveying major battle sites in this memory war memorial museums monuments film and the war over definitions and terminology in relevant public discourse The Holocaust Genocide Template in Eastern Europe will be of great interest to scholars of genocide the Holocaust historical memory and revisionism and Eastern European Politics This book was originally published as a special issue of the Journal of Genocide Research

The Template Spring Yuen Ching Fung, 1994

Legisprudence Luc Wintgens, 2002-11-21 The unifying idea behind the essays in this volume is that although legislation and regulation are the result of a political process legislation and regulation can be the object of theoretical study The focus is on problems that are common to most European legal systems and the approach involves applying to legislative problems the tools of legal theory hence legisprudence Traditional legal theory deals predominantly with the question of the application of law by the judge

Legisprudence enlarges the field of study so as to include the creation of law by the legislator Following this new approach a variety of new questions and problems are raised including the validity of norms their meaning and the structure of the legal system problems that are traditionally dealt with from the perspective of the judge or are taken for granted by classical legal theory However by shifting the attention to the legislator the same questions arise though traditional legal science covers many of these questions with the cloak of sovereignty The original essays published in this volume expose and develop a range of new insights into the relationship between legislative problems and legal theory in a way which will engage and interest many legal scholars around the world
