The Sociological Turn in Translation and Interpreting Studies Claudia V. Angelelli, 2014-09-15 Increasing attention has been paid to the agency of translators and interpreters as well as to the social factors that permeate acts of translation and interpreting In addition agency and social factors are discussed in more interdisciplinary terms Currently the focus is not only on translators or interpreters i e the exploration of their inter intra social agency and identity construction or on their activities and the consequences thereof but also on other phenomena such as the displacement of texts and people and issues of access and linguisticism The displacement of texts whether written or oral across time and space as well as the geographic displacement of people has encouraged researchers in Translation and Interpreting Studies to consider issues related to translation and interpreting through the lens of the Sociology of Language Sociolinguistics and Historiography Researchers have employed a myriad of theoretical and methodological lenses borrowed from other disciplines in the Humanities and Social Sciences Therefore the interdisciplinarity of Translation and Interpreting Studies is more evident now than ever before This volume originally published as a special issue of Translation and Interpreting Studies issue 7 2 2012 is a perfect example of such interdisciplinarity reflecting the shift that has occurred in Translation and Interpreting Studies around the world over the last 30 years

Testing and Assessment in Translation and Interpreting Studies Claudia V. Angelelli, Holly E. Jacobson, 2009 Testing and Assessment in Translation and Interpreting Studies examines issues of measurement that are essential to translation and interpreting Conceptualizing testing both as a process and a product the collection of papers explores these issues across languages and settings including university classrooms research projects the private sector and professional associations The authors have approached their chapters from different perspectives using a variety of methods some focusing on very specific variables and others providing a much broader overview of the issues at hand Chapters range from a discussion of the measurement of text cohesion in translation the measurement of interactional competence in interpreting the use of a particular scale to measure interpreters renditions to the application of a specific approach to grading or general program assessment such as interpreter or translator certification at the national level or program admissions processes These studies point to the need for greater integration of research and practice in the specific area of testing and assessment and are a welcome addition to the field

Medical Interpreting and Cross-cultural Communication Claudia V. Angelelli, 2004-10-21 When healthcare providers and patients do not speak the same language medical interpreters are called in to help In this book the first ever ethnographic study of a bilingual hospital Claudia Angelelli explores the role of medical interpreters drawing on data from over 300 medical encounters and interviewing the interpreters themselves about the people for whom they interpret their challenges and how they characterize their role Traditionally the interpreter has been viewed as a language conduit with little power over the medical encounter or the relationship between patient and provider This book presents an alternative view considering the interpreter's agency and contextualizing the practice within an institution that is part of a larger society Bringing together literature from social theory social psychology and linguistic anthropology this book will be welcomed by anyone who wants to discover the intricacies of medical interpreting firsthand particularly researchers communication specialists policy makers and practitioners

Revisiting the Interpreter's Role Claudia Angelelli, 2004 Through the development of a valid and reliable instrument this book sets out to study the role that interpreters play in the various settings where they work i.e. the courts the hospitals business meetings international conferences and schools It presents interpreters perceptions and beliefs about their work as well as statements of their behaviors about their practice For the first time the administration and results of a survey administered across languages in Canada Mexico and the United States offer the reader a glimpse of the interpreters views in their own words It also discusses the tension between professional ideology and the reality of interpreters at work This book has implications for the theory and practice of interpreting across settings
