

PRAYER FOR GRADUATES

LET ME BE A BLESSING

Thank You, Lord, for Your guidance and grace through my years on campus. I'm thankful to You for taking care of me in school. I'm thankful that

I've been able to complete my course successfully. I'm thankful that today, I'm a graduate. Thank You so much, Lord. Thank You for Your protection for all my days on campus.

I pray for more protection as I approach the world as a graduate. Please teach me to number my days and protect me in all my ways. I pray that You please continue blessing me with good health both physically and mentally. Take away any ailments and weakness from me Lord. As I approach the world today, I pray for You to lead me on this journey. Lord, order my steps and make everything work out for my good. Let me be a blessing to everyone that I encounter. Let me be a blessing to the world in Jesus' name,

Amen

all the way in school to obtain a PhD but struggles to find a voice along the way Henry Jr's son Justin was seemingly born with an expressive voice but in his shuffle to conform to the school system almost lost it In these 3 cases we see 3 types of students who often fail in school in general In the final analysis part the book reflects on these prosaic cases to understand why so many U S students fail The theme that emerges parallels the traditions of Rousseau Dewey and Montessori students at heart are good and educators are most effective when they treat them as such students learn best by doing and this includes moral doing and students become intrinsically motivated to learn if allowed to think critically creatively and to find their voices If democracy depends on an informed citizenry the questions this book raises about school failure are critical to the future of our nation J A Trusting Doctors Jonathan B. Imber, 2015-09-01 For more than a century the American medical profession insisted that doctors be rigorously trained in medical science and dedicated to professional ethics Patients revered their doctors as representatives of a sacred vocation Do we still trust doctors with the same conviction In *Trusting Doctors* Jonathan Imber attributes the development of patients faith in doctors to the inspiration and influence of Protestant and Catholic clergymen during the nineteenth and early twentieth centuries He explains that as the influence of clergymen waned and as reliance on medical technology increased patients trust in doctors steadily declined *Trusting Doctors* discusses the emphasis that Protestant clergymen placed on the physician's vocation the focus that Catholic moralists put on specific dilemmas faced in daily medical practice and the loss of unchallenged authority experienced by doctors after World War II when practitioners became valued for their technical competence rather than their personal integrity Imber shows how the clergy gradually lost their impact in defining the physician's moral character and how vocal critics of medicine contributed to a decline in patient confidence The author argues that as modern medicine becomes defined by specialization rapid medical advance profit driven industry and ever more anxious patients the future for a renewed trust in doctors will be confronted by even greater challenges *Trusting Doctors* provides valuable insights into the religious underpinnings of the doctor patient relationship and raises critical questions about the ultimate place of the medical profession in American life and culture
