Unmanageable Care Jessica M. Mulligan, 2014-08-08 In Unmanageable Care anthropologist Jessica M Mulligan goes to work at an HMO and records what it is really like to manage care Set at a health insurance company dubbed Acme this book chronicles how the privatization of the health care system in Puerto Rico transformed the experience of accessing and providing care on the island Through interviews and participant observation the book explores the everyday contexts in which market reforms were enacted It follows privatization into the compliance department of a managed care organization through the visits of federal auditors to a health plan and into the homes of health plan members who recount their experiences navigating the new managed care system In the 1990s and early 2000s policymakers in Puerto Rico sold off most of the island's public health facilities and enrolled the poor elderly and disabled into for profit managed care plans These reforms were supposed to promote efficiency

cost effectiveness and high quality care Despite the optimistic promises of market based reforms the system became more expensive not more efficient patients rarely behaved as the expected health maximizing information processing consumers and care became more chaotic and difficult to access Citizens continued to look to the state to provide health services for the poor disabled and elderly This book argues that pro market reforms failed to deliver on many of their promises The health care system in Puerto Rico was dramatically transformed just not according to plan *Workbook for Insurance Handbook for the Medical Office - E-Book* Marilyn Fordney,2016-01-12 Gain real world practice in insurance billing and coding with Fordney s Workbook for Insurance Handbook for the Medical Office 14th Edition This user friendly workbook features realistic hands on exercises to help you apply concepts and develop critical thinking skills Study tools include performance objectives key terms abbreviation lists study outlines critical thinking assignments and more Performance objectives are carried throughout the chapter to help users identify what needs to be accomplished for that chapter Critical thinking assignments contains questions in the form of short real world vignettes to assist users in applying theory learned from the textbook Self study exercises include fill in the blank mix and match multiple choice and true false questions Key terms and abbreviations lists at beginning of each chapter help to teach and reinforce new concepts and terminology Study outlines covering the key points for each chapter in the textbook guide effective note taking during classroom lecture NEW Updated content reflects changes in the main text
