

Medication Study Guide

Administering medications is a very important task. Current regulations and requirements for medication administration in adult care homes in North Carolina became effective January 1, 2000. One of the requirements is that any unlicensed person administering medications or supervising the administration of medications must pass a test given by the state of North Carolina. Information such as schedules and changes regarding medication testing may be found on our website at <http://www.ncdhhs.gov/dhsr/acls/>.

The purpose of the Medication Study Guide is to help you become more knowledgeable with administering medications and better prepared for the test. There are three sections to the Medication Study Guide.

In Section 1, there are 118 questions divided into the following areas:

1. Abbreviations/Medical Terminology
2. Regulations
3. Medication Administration
4. Measuring Devices
5. Metric System
6. Labels
7. Medication Administration Records
8. Infection Control

You need to read each question thoroughly and choose the best answer.

In Section 2, you will find the answers to each of the questions in Section 1. Except for questions 1 through 20, there is an explanation of why the answer is correct. The explanation should help you learn more about your important role with administering medications and better prepare you for the test. It is very important that you understand why the answer is correct. If you need additional help with questions, you should ask a pharmacist or nurse for assistance.

Section 3 has additional attachments for you to use as resources. You should try to answer the questions without using the attachments.
