Medications help older adults manage their health conditions. The drugs we take need managing, as well!

When your doctor prescribes a new medication, ask ...

- What is it for?
- Do I really need it?
- How should it be taken?
- For how long should I take it?
- What are possible side effects?
- How should I store it?

Ask your primary doctor to review all your medications.

- Include drugs prescribed by all your doctors.
- Bring in your pill bottles or a list.
- Include over-the-counter drugs.
- Don't forget supplements.
- Discuss side effects.
- Ask if each drug is still needed.

Your professional in-home caregiver can provide transportation to the pharmacy or pick up prescriptions, and provide medication reminders. Contact Right at Home today and ask for a care consultation.
