**A Short History of Medieval Christianity** G.R. Evans, 2017-05-02 What did people really believe in the Middle Ages Much of our sense of the medieval period has come down to us from the writings of the learned the abbots priors magnates scholastic theologians and others who between them and across Christendom controlled the machinery of church and state For G R Evans too much emphasis has been placed on a governing elite and too little on those the great mass of the semi literate and illiterate and the emergent middle classes who stood outside the innermost circles of ecclesiastical power privilege and education Her book finally gives proper weight to the neglected literature of demotic religion the lives of saints writings by those including lay women who had mystical experiences and lively texts containing stories for popular edification Ranging widely from the fall of Rome to the ideas of the Reformation the author addresses vital topics like the appeal of monasticism the lure of the Crusades the rise of the friars and the acute crisis of heresy As Evans reveals medieval Christianity was shaped above all by its promise of salvation or eternal perdition

**A New History of Early Christianity** Charles Freeman, 2009-01-01 Tracing the astonishing transformation that the early Christian church underwent from sporadic niches of Christian communities surviving in the wake of a horrific crucifixion to sanctioned alliance with the state Charles Freeman shows how freedom of thought was curtailed by the development of the concept of faith The imposition of correct belief and an institutional framework that enforced orthodoxy were both consolidating and stifling Uncovering the church s relationships with Judaism Gnosticism Greek philosophy and Greco Roman society Freeman offers dramatic new accounts of Paul the resurrection and the church fathers and emperors BOOK JACKET

Medieval Christianity Kevin Madigan, 2015-01-13 An engaging narrative history of the medieval church with new attention to women ordinary parishioners attitudes toward Jews and Muslims and more Publishers Weekly starred review For many the medieval world seems dark and foreign an often brutal and seemingly irrational time of superstition miracles and strange relics The aggressive pursuit of heretics and attempts to control the Holy Land might come to mind Yet the medieval world produced much that is part of our world today including universities the passion for Roman architecture and the development of the gothic style pilgrimage the emergence of capitalism and female saints This new narrative history of medieval Christianity spanning the period 500 to 1500 CE attempts to integrate the familiar with new themes and narratives Elements of novelty in the book include a steady focus on the role of women in Christianity the relationships among Christians Jews and Muslims the experience of ordinary parishioners the adventure of asceticism devotion and worship and instruction through drama architecture and art Kevin Madigan expertly integrates these areas of focus with more traditional themes such as the

evolution and decline of papal power the nature and repression of heresy sanctity and pilgrimage the conciliar movement and the break between the old Western church and its reformers Illustrated with more than forty photographs of physical remains this book promises to become an essential guide to a historical era of profound influence Compelling a picture of medieval Christianity that is no less lively for being well informed and carefully balanced Commonweal

**Death and Afterlife in Medieval Christian Thought** Jeremiah Mutie, 2025-07-29 Death and Afterlife in Medieval Christian Thought explores how medieval Christians conceived the changing ideas of death and what happens thereafter to both the material and immaterial aspects of a person Where much scholarship has addressed this topic from a Western point of view this book asks how these ideas emerged and progressed over this long period of time in both Western and Eastern medieval Christianities The work examines the two leading motifs of death and the afterlife in Western medieval Christian thought Purgatory and the cult of the saints It then proceeds to shift the spotlight to conceptions of death in Eastern Christianity all the while maintaining a comparative approach This book not only delves into the theoretical but draws on archaeological evidence such as artefacts to provide a broader view of the evidence Ultimately it finds that medieval Christians continued the process that started in Christianity's earliest days of borrowing and modifying existing ideas of death and the afterlife in order to produce a distinctive and sophisticated Christian set of beliefs As an accessible introduction this book stands as a valuable resource to students scholars and all readers interested in early medieval Christianity the history of ideas and the history of death

Daugherty, 2019-07-08 Christianity has been accused of being misogynistic pro slavery and anti science and some say it is finally beginning its long decline This book provides an entirely different side to the stories about this faith Why did Christianity become the largest religion in the world Is it because it was

misogynistic pro slavery anti science and set on condemning those who didn't join it This book investigates many of the misconceptions about Christianity and argues that there are good reasons this faith has become the world's largest The book includes chapters on various misconceptions related to the history of Christianity such as the beliefs that Jesus was a meek and mild carpenter the Roman emperor Constantine was insincere in his Christian faith medieval Europe was devoutly Christian and Christianity was anti science Each chapter explores how the historical misconception developed and spread and offers what we now believe to be the historical truth contradicting the fiction Excerpts from primary source documents provide evidence for the historical misconceptions and truths and help readers to respond critically to claims about Christian history

inquiry A New History of the Humanities amounts to a persuasive plea to give Panini Valla Bopp and countless other often overlooked intellectual giants their rightful place next to the likes of Galileo Newton and Einstein

**Religion in the History of the Medieval West** John Van Engen, 2023-05-31 These ten essays by John Van Engen situate religion in the history of medieval Western Europe as an unavoidable presence in everyday life as a conceptual framework for social and political life as a force integral to its historical dynamics Four of the essays are bibliographical and retrospective in nature reviewing the field broadly but also

pointing toward a more dialectical approach to understanding the interaction of religion and society in the European middle ages Other studies deal with large topics usually subsumed under the abstract term Christianization They grapple with learned sources as well as those associated with popular religion and show what can be gained from an imaginative use of all that lawyers and theologians said about religion in their society The essays finally look for the quality and dynamic of change even inventiveness released by religious action and conviction in medieval European society
