Midcentury Houses Today:

Midcentury Houses Today Lorenzo Ottaviani, Jeffrey Matz, Cristina A. Ross, 2014-10-21 Architects Philip Johnson Marcel Breuer Landis Gores Eliot Noyes Edward Durell Stone and others created an extraordinary collection of modern houses in New Canaan Connecticut in the 1940s and 1950s The bucolic New England town a suburb of Manhattan became the site of fervent experimentation by some of the leading lights of the movement in the United States the architects known as the Harvard Five whose modern aesthetic could be traced to the Bauhaus school of design There they promoted their core principles simplicity openness and sensitivity to site and nature and built glass wood steel and fieldstone houses that established architectural modernism as the ideal of domesticity in the twentieth century Architects Jeffrey Matz and Cristina A Ross photographer Michael Biondo and graphic designer Lorenzo Ottaviani present this vanishing generation of iconic American houses as more than an issue of restoration or preservation but as an evolving legacy that adapts to contemporary life Selecting a representative group of sixteen houses covering the period between the 1950s and 1978 they portray each one in great detail with floor plans timelines and both archival and luminous new photography from the clean minimalist look of the initial construction to subsequent additions by some of the most significant architects of our time including Toshiko Mori Roger Ferris and Joeb Moore Voices of the architects and builders original owners and current occupants combine to describe how the houses are enjoyed and lived in today and how the modernist residence is more than just a philosophy of design and construction but also a philosophy of living

Modern in the Middle Susan Benjamin, Michelangelo Sabatino, 2020-09-01 The first survey of the classic twentieth century houses that defined American Midwestern modernism Famed as the birthplace of that icon of twentieth century architecture the skyscraper Chicago also cultivated a more humble but no less consequential form of modernism the private residence Modern in the Middle Chicago Houses 1929 75 explores the substantial yet overlooked role that Chicago and its suburbs played in the development of the modern single family house in the twentieth century In a city often associated with the outsize reputations of Frank Lloyd Wright and Ludwig Mies van der Rohe the examples discussed in this generously illustrated book expand and enrich the story of the region's built environment Authors Susan Benjamin and Michelangelo Sabatino survey dozens of influential houses by architects whose contributions are ripe for reappraisal such as Paul Schweikher Harry Weese Keck Keck and William Pereira From the bold early example of the Battledock House by Henry Dubin 1930 to John Vinci and Lawrence Kenny's gem the Freeark House 1975 the generation spanning residences discussed here reveal how these architects contended with climate and natural setting while negotiating the dominant influences of Wright and Mies They also reveal how residential clients typically middle class professionals progressive in their thinking helped to trailblaze modern architecture in America Though reflecting different approaches to site space structure and materials the examples in Modern in the Middle reveal an abundance of astonishing houses that have never been collected into one study until now

Mid-Century Modernism and the

American Body Kristina Wilson,2021-04-13 The first investigation of how race and gender shaped the presentation and marketing of Modernist decor in postwar America In the world of interior design mid century Modernism has left an indelible mark still seen and felt today in countless open concept floor plans and spare geometric furnishings Yet despite our continued fascination we rarely consider how this iconic design sensibility was marketed to the diverse audiences of its era Examining advice manuals advertisements in Life and Ebony furniture art and more Mid Century Modernism and the American Body offers a powerful new look at how codes of race gender and identity influenced and were influenced by Modern design and shaped its presentation to consumers Taking us to the booming suburban landscape of postwar America Kristina Wilson demonstrates that the ideals defined by popular Modernist furnishings were far from neutral or race blind Advertisers offered this aesthetic to White audiences as a solution for keeping dirt and outsiders at bay an approach that reinforced middle class White privilege By contrast media arenas such as Ebony magazine presented African American readers with an image of Modernism as a style of comfort security and social confidence Wilson shows how etiquette and home decorating manuals served to control women by associating them with the domestic sphere and she considers how furniture by George Nelson and Charles and Ray Eames as well as smaller scale decorative accessories empowered some users even while constraining others A striking counter narrative to conventional histories of design Mid Century Modernism and the American Body unveils fresh perspectives on one of the most distinctive movements in American visual culture

Chicagoland Dream Houses Siobhan Moroney,2024-01-23 Chicagoland Dream Houses is an engaging addition to the growing body of scholarship concerning Chicago s twentieth century residential landscape characterized by a diverse group of architects and builders Michelangelo Sabatino coauthor of Modern in the Middle Chicago Houses 1929 1975 **Hut Pavilion Shrine: Architectural Archetypes in Mid-Century Modernism** Miles David Samson,2016-03-09 The phase of American architectural history we call mid century modernism 1940 1980 saw the spread of Modern Movement tenets of functionalism social service and anonymity into mainstream practice It also saw the spread of their seeming opposites Temples arcades domes and other traditional types occur in both modernist and traditionalist forms from the 1950s to the 1970s Hut Pavilion Shrine examines this crossroads of modernism and the archetypal and critiques its buildings and theory The book centers on one particularly important and omnipresent type the pavilion a type which was the basis of major work by Louis I Kahn Paul Rudolph Philip Johnson Minoru Yamasaki and other eminent architects While focusing primarily on the architecture culture of the United States it also includes the work of British European Team X and Scandinavian designers and writers Making connections between formal analysis historical context and theory the book continues lines of inquiry which have been pursued by Neil Levine and Anthony Vidler on representation and by Sarah Goldhagen and Alice Friedman on modernism s forbidden elements of the honorific and the visually pleasurable It highlights the significance of pavilionizing mid century designers such as Victor Lundy John Johansen Eero Saarinen and Edward Durell Stone and shows how frequently essentialist and traditionalist types appeared in the roadside vernacular of drive in restaurants gas stations furniture and car showrooms branch banks and motels The book ties together the threads in mid century architectural theory that addressed aspects of type essential structure and primal humanistic aspects of environment making and discusses how these concerns outlived the mid century moment and in the designs and writings of Aldo Rossi and others they paved the way for Post Modernism **The Philadelphia Country House** Mark E. Reinberger,Elizabeth McLean,2015-10-21 A highly readable beautifully illustrated study of the homes built by elite colonial Philadelphians as retreats which balanced English

models with developing local taste Colonial Americans if they could afford it liked to emulate the fashions of London and the style and manners of English country society while at the same time thinking of themselves as distinctly American The houses they built reflected this ongoing cultural tension By the mid eighteenth century Americans had developed their own version of the bourgeois English countryseat a class of estate equally distinct in social function and form from townhouses rural plantations and farms The metropolis of Philadelphia was surrounded by a particularly extraordinary collection of country houses and landscapes Taken together these estates make up one of the most significant groups of homes in colonial America In this masterly volume Mark Reinberger a senior architectural historian and Elizabeth McLean an accomplished scholar of landscape history examine the country houses that the urban gentry built on the outskirts of Philadelphia in response to both local and international economic forces social imperatives and fashion What do these structures and their gardens say about the taste of the people who conceived and executed them How did their evolving forms demonstrate the persistence of European templates while embodying the spirit of American adaptation The Philadelphia Country House explores the myriad ways in which these estates which were located in the country but responded to the ideas and manners of the city straddled the cultural divide between urban and rural Moving from general trends and building principles to architectural interiors and landscape design Reinberger and McLean take readers on an intimate tour of the fine fashionable elements found in upstairs parlors and formal gardens They also reveal the intricate working world of servants cellars and kitchen gardens Highlighting an important aspect of American historic architecture this handsome volume is illustrated with nearly 150 photographs more than 60 line drawings and two color galleries

But what we have come to regard as almost a national birthright has recently begun to elude more and more prospective homebuyers. Where housing is concerned, affordable and well-crafted rarely exist together. Or do they? For years, founding editor in chief of Dwell magazine and noted architecture and design critic Karrie Jacobs had been confronting this question both professionally and personally. Finally, she decided to see for herself whether it was possible to build the home of her own dreams for a reasonable sum. The Perfect 100,000 House is the story of that quest, a search that takes her from a two-week crash course in housebuilding in Vermont to a road trip of some 14,000 miles. In the course of her journey, Jacobs encounters a group of intrepid and visionary architects and builders working to revolutionize the way Americans think about homes, about construction techniques, and about the very idea of community. By her trip's end, Jacobs has not only had a practical and sobering education in the economics, aesthetics, and politics of homebuilding, but has been spurred to challenge her own deeply held beliefs about what constitutes an ideal home. The Perfect 100,000 House is a compelling and inspiring demonstration that we can live in homes that are sensible, modest, and beautiful. *Master of the Midcentury* Catherine Cody, Jo Lauria, Don Choi, 2021-09-14 Master of the Midcentury: The Architecture of William F. Cody is the first long-overdue book on this key Palm Springs architect, abundantly illustrated and detailed. Of the architects who made Palm Springs a crucible of midcentury American modernism, William F. Cody (1916-1978) was one of the most prolific, diverse, and iconic. Directing a practice ranging from residences to commercial centers and industrial complexes to master plans, Cody's designs are so recognizable that they provide visual shorthand for what is widely hailed as Desert Modern. While his architecture was disciplined and technically innovative, Cody did not practice an austere modernism; he imbued his projects with a love for social

spaces rich with patterns texture color and art Though the majority of Cody s built work was concentrated in California and Arizona he had commissions in other western states Hawaii Mexico Honduras and Cuba From icons like the Del Marcos Hotel 1946 to inventive country clubs like the Eldorado 1957 to houses for celebrities Frank Sinatra Bing Crosby Walt Disney Cody s projects defined the emerging West Coast lifestyle that combined luxury leisure and experimental design Cody also pushed the boundaries of engineering with beams and roof slabs so thin that his buildings seemed to defy gravity Master of the Midcentury is the first monograph devoted to Cody authored by the team that curated the acclaimed exhibition Fast Forward The Architecture of William F Cody at the Architecture and Design Museum in Los Angeles his daughter Cathy Cody design historian Jo Lauria and architectural historian Don Choi Replete with photographs of extant and now lost structures as well as masterful color renderings and drawings for architectural commissions and plans for vanguard building systems Master of the Midcentury is the authoritative resource on Cody **Mid-Century Modern Interiors** Lucinda Kaukas

Havenhand,2019-01-24 Mid Century Modern Interiors explores the history of interior design during arguably its most iconic and influential period The 1930s to the 1960s in the United States was a key moment for interior design It not only saw the emergence of some of interior design s most globally important designers it also saw the field of interior design emerge at last as a profession in its own right Through a series of detailed case studies this book introduces the key practitioners of the period world renowned designers including Ray and Charles Eames Richard Neutra and George Nelson and examines how they developed new approaches by applying systematic and rational principles to the creation of interior spaces It takes us into the mind of the designer to show how they each used interior design to express their varied theoretical interests and reveals how the principles they developed have become embodied in the way interior design is practiced today This focus on unearthing the underlying ideas and concepts behind their designs rather than on the finished results creates a richer more conceptual understanding of this pivotal period in modernist design history With an extended introduction setting the case studies within the broader context of twentieth century design and architectural history this book provides both an introduction and an in depth analysis for students and scholars of interior design architecture and design history **Gone**
