

# General Term Summary

## Grade 6 – Term 1

### Language Arts

In Language Arts, we focused on several types of functional writing, and extended our knowledge of reading strategies to deepen our understanding of literature. Our writing practice explored the traits of writing (organization, content, sentence structure, conventions and word choice). Students were also engaged in responding to a variety of writing prompts, which included regular blogging, personal reflections, descriptive paragraphs and persuasive arguments. Our class read aloud focused on the comprehension strategies of self-monitoring, making connections and making inferences. Further, students practiced their ability to manage ideas and information through research and engaged in many research activities that required them to access information, evaluate sources, record information and share their ideas and information. The above concepts were applied to real-world situations, as well as selected texts.

### Science

This term we performed an in-depth study of Topic A: Air and Aerodynamics, as well as Topic B: Flight. This included the properties of air, and specific ways that air movement can create lift. The class also focused on making observations as part of Topic C: Evidence and Investigation. Through the study of the topics, we applied the scientific process and used an investigative approach.

### Social Studies

**6.1 Citizens Participating in Decision Making:** The broad focus in Social Studies in Grade 6 is on active citizenship and how we can affect others through our decisions and understanding of the world around us. This term we studied decision-making processes, the components that make up democracy, and how our rights and freedoms are protected in Canada. Students learned and used this information by exploring their values and attitudes, applying their knowledge and understanding, and practicing a variety of skills and processes (active inquiry, critical thinking, reflection and using and managing information).

### Mathematics

**The strands of Number and Patterns and Relations:** While working with these strands, we looked at ways to describe patterns and relationships between numbers, and the different ways that we can write, describe and organize numbers. Students were required to represent and describe patterns and relationships using graphs and tables, understand relationships within tables of values to solve problems, develop and use equations with letter variables (basic algebraic equations), understand and apply the order of operations, demonstrate the meaning of preservation of equality and identify multiples and factors of various numbers.

**The strand of Shape and Space:** Angles and their relationships in different shapes were examined. Students were required to demonstrate the ability to identify angles in their environment, classify angles according to their measure, determine angle measures in degrees and understand the relationship between angles relative to their shape type (triangles and quadrilaterals).

Students are expected to demonstrate mathematical understanding by explaining their understanding, connecting mathematical ideas to other concepts and subject areas, demonstrating fluency with mental math, developing and applying new mathematical understanding through problem solving, developing mathematical reasoning, selecting and using technology as tools in problems solving and using visualization skills to assist in making connections and with problem solving. All of the above skills were used to solve problems that are encountered in daily life, and show how mathematics can be used in and out of the classroom.

Pawlas, Peter F. Oliva, 2007-06-29 Specifically designed for the introductory course this text provides an overview of the field of instructional supervision Acquaints students with not only the authors views on supervision but with those of other specialists in the field placing heavy emphasis on practice and the supervisor s responsibilities as an instructional leader Continues to stress that the relationship between the supervisor and teacher is built on trust and that the overall goal is to improve student achievement through better instruction **A Big Apple for Educators: New York City's Experiment with Schoolwide Performance Bonuses** Julie A. Marsh, Matthew G. Springer, Daniel F. McCaffrey, Kun Yuan, Scott Epstein, 2011-07-15 For three school years from 2007 to 2010 about 200 high needs New York City public schools participated in the Schoolwide Performance Bonus Program whose

broad objective was to improve student performance through school based financial incentives An independent analysis of test scores surveys and interviews found that the program did not improve student achievement perhaps because it did not motivate change in educator behavior      *Identity and Diversity* Maud Blair, Janet Holland, Sue Sheldon, 1995-01-01 First published in 1995 Routledge is an imprint of Taylor Francis an informa company      *Resource Teachers* Jennifer Katz, 2013-12-10 In *Resource Teachers* Dr Jennifer Katz describes the fundamental shift in the role of the resource teacher in the inclusive classroom outlined in her previous book *Teaching to Diversity* Dr Katz discusses practical and innovative ways to partner with classroom teachers to create inclusive learning communities by co planning co teaching and co assessing instruction with less emphasis on traditional practices of pull out remediation IEPs and modified programming      *Report on Education* Southern Rhodesia. Department of Education, 1927      **Parental Involvement in Childhood Education** Garry Hornby, 2011-04-07 Parental participation has long been recognized as a positive factor in children s education Research consistently shows that parents contributions to their children s education lead to improvements in their academic and behavioral outcomes from elementary through middle and secondary school Recognizing the critical role of school psychologists in this equation *Parental Involvement in Childhood Education* clearly sets out an evidence based rationale and blueprint for building parental involvement and faculty awareness The author s starting point is the gap between the ideals found in the literature and the reality of parental involvement in schools An ecological analysis identifies professional institutional and societal factors that keep schools and parents distant Methods for evaluating parental involvement are detailed as is a model for developing and maintaining strong parental relationships at the instructor school and education system level with an emphasis on flexible communication and greater understanding of parents needs This empirically sound coverage offers readers A detailed understanding of obstacles to parental involvement An evidence based model for parental participation A three nation study of parental involvement practices in schools Guidelines for implementing parental involvement activities and initiatives A review of effective communication strategies with parents Analysis of key interpersonal skills for effective work with parents *Parental Involvement in Childhood Education* is essential reading for practitioners and researchers in school psychology and counseling social work and educational psychology whether they work directly with schools or in providing training for teachers and other professionals who work with children and their parents      *The Other Side of the Report Card* Maurice J. Elias, Joseph J. Ferrito, Dominic C. Mocerri, 2015-12-14 To better serve the whole child look at the whole report card Although parents and teachers spend more time in conferences talking about behavior than they do about rubrics and test scores too many teachers are still guessing when it comes to using outdated behavior ratings and comments to describe the whole child With this book you ll take report cards to the next level integrating social emotional learning and character development into any grading system Resources include Guided exercises for analyzing existing report cards Suggested report card designs Tips on improving teacher parent communication

Case studies Testimonials from teachers and students      *Organizational Literacy for Educators* Jason Earle, Sharon D. Kruse, 1999-02-01 Teachers and administrators who understand the politics in schools can operate more successfully to facilitate change This text teaches educators to identify and influence common social patterns that affect their work in school organizations It combines literature from educational leadership and foundations of education to provide a comprehensive introduction to organizational theories related to schooling A particularly notable feature is that in addition to traditional bureaucratic and political approaches there is a substantial focus on recent critical and feminist theories Extensive use of narrative vignettes makes the theories accessible for prospective and practicing teachers Practice cases and exercises assist students in applying the theories to their own organization settings Assuming little prior knowledge of theories about school organizations this volume is intended as a text for introductory graduate courses as well as for advanced undergraduate courses and groups such as site based management teams and district professional development committees      **Closing the Circle** Sean A.
